Miss Stephen's Apprenticeship Rosalind Brackenbury, 2018-03-15
During the years leading up to her marriage with Leonard Woolf in 1912 the year in which she finished *The Voyage Out* and sent it to be published by her cousin at Duckworth s the future Virginia Woolf was teaching herself how to be a writer
While her brothers were sent first to private schools then to Cambridge to be educated Virginia Stephen and her sister Vanessa were informally educated at home
With this background how did she know she was a writer
What were her struggles
How did she teach herself
What made Miss Stephen into the author Virginia Woolf
Miss Stephen s *Apprenticeship* explores these questions delving into Virginia Woolf s letters and diaries seeking to understand how she covered the distance from the wistful I only wish I could write to the almost casual statement the novels are finished
These days the trajectory of a writer very often starts with studying for an MFA
In Woolf s case however it s instructive to ask How did a great writer who had no formal education invent for herself the framework she needed for a writing life
How did she know what she had to learn
How did she make her own way
Novelist Rosalind Brackenbury explores these questions and others and in the process reveals what Virginia Woolf can give to young writers today
