A Traveller In War Time:

A Traveller in War-Time Churchill, 2016-02-22

PREFACE I am reprinting here in response to requests certain recent experiences in Great Britain and France These were selected in the hope of conveying to American readers some idea of the atmosphere of what it is like in these countries under the immediate shadow of the battle clouds It was what I myself most wished to know My idea was first to send home my impressions while they were fresh and to refrain as far as possible from comment and judgment until I should have had time to make a fuller survey Hence I chose as a title for these articles intended to be preliminary A Traveller in War Time I tried to banish from my mind all previous impressions gained from reading I wished to be free for the moment to accept and record the chance invitation or adventure wherever met with at the Front in the streets of Paris in Ireland or on the London omnibus Later on I hoped to write a book summarizing the changing social conditions as I had found them Unfortunately for me my stay was unexpectedly cut short I was able to avail myself of but few of the many opportunities offered With this apology the articles are presented as they were written I have given the impression that at the time of my visit there was no lack of food in England but I fear that I have not done justice to the frugality of the people much of which was self imposed for the purpose of helping to win the war On very good authority I have been given to understand that food was less abundant during the winter just past partly because of the effect of the severe weather on our American railroads which had trouble in getting supplies to the coast and partly because more and more ships were required for transporting American troops and supplies for these troops to France This additional curtailment was most felt by families of small income whose earners were at the front or away on other government service Mothers had great difficulty in getting adequate nourishment for growing children But the British people cheerfully submitted to this further deprivation Summer is at hand It is to be hoped that before another winter sets in American and British shipping will have sufficiently increased to remedy the situation

Winston Churchill,2012-07-28 Winston Churchill the American author writes about his experiences in Europe during WWI after leaving New York in the summer of 1917 He and countless other Americans travel to Europe to join the war effort by building shelters for the homeless French driving ambulances and becoming a part of the American Field Service The bourgeoisie including lawyers doctors businessmen newspaper correspondents movie photographers and millionaires leave their comforts to take on the hardships of war effected countries and support the Allies Women also partake in the war efforts and are eager to begin being useful as one of the women describes it They join the Red Cross without a backward glance at their once sheltered lives The French gladly welcome the Americans and ask if they come to save them Churchill confirms this notion and adds they also come to save themselves Bombs over London become a regular occurrence Despite the war however life in London goes on Contrary to Churchill s expectations restaurants and theatres buzz with people He is even served bread and sugar during meals Churchill and the officers and sailors get used to five to eight days of brutal vigilance and the hardships of war followed by three days of leisure spent at clubs golf courses and tennis courts *A Traveller in War-Time; With an Essay on the American Contribution and the Democratic Idea* Winston Churchill,Eva C. sgn Marshall,2016-05-07 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the
