Agrarian Policies And Rural Poverty In Africa:

Agrarian Policies and Rural Poverty in Africa Dharam P. Ghai, Samir Muḥammad Raḍwān, 1982-12-31 **Agrarian Policies and Rural Poverty in Africa** International Labour Office, 1983 *Agrarian Policies and Rural Poverty in Africa* World Employment Programme, 1983 **Agrarian Policies and Rural Poverty in Africa** Dharam P. Ghai, Samir Radwan, 1983 ILO pub WEP pub Monograph on agricultural policies and rural area poverty trends in Africa south of Sahara examines impact of government policies with regard to public expenditure Terms of Trade and land tenure and covers in particular income distribution in Botswana stagnation of Ghana's economic growth rural development in the Cote d'Ivoire social justice in Kenya inequality in Malawi economic development of Mozambique economic role of Nigeria's petroleum resources nomadic pastoralism in Somalia and equity in Zambia References **Agrarian policy and rural poverty in Africa**, 1985 **State Power, Agrarian Policies and Peasant Welfare** Dan Mou, 2014-01-17 This book identifies and explains the politico historical forces that underlie agrarian policies in Nigeria It also examines the impacts of these policies on different social classes and groups especially the peasantry The book focuses specifically on the Agricultural Marketing and Commodity Boards in Nigeria from 1945 1985 These boards are examined as state agencies and actions that have direct implications for different classes and groups The book reveals that the various social classes and groups contested every step of the agrarian policies right from their agenda setting to actual implementation Consequently the contestations affected drastically the policies and outcomes in such a way that the original goals were lost I am very impressed with its theoretical scope command of extant literature and methodological sophistication Dr Mous book should be of immense interest to a broad range of scholars from political theorists to political economists as well as African area specialists Professor Crawford Young Department of Political Science University of Wisconsin Madison USA Dr Dan Mou Thanks for contributing to knowledge Your book is highly expository and full of discoveries We are proud of you S A Raofu Chairman Committee of Deans AOCOE Lagos Nigeria **Poverty in Developing Countries** World Employment Programme, 1992 Topics include agricultural development basic needs development strategy and planning economic development and policy employment food production housing needs income distribution and industrialization Indexes are divided by references authors corporate authors subject and geographical aspects **African Land Questions, Agrarian Transitions and the State** Sam Moyo, 2008 This empirically grounded study provides a critical reflection on the land question in Africa research on which tends to be tangential conceptually loose and generally inadequate It argues that the most pressing research concern must be to understand the precise nature of the African land question its land reforms and their effects on development To unravel the roots of land conflicts in Africa requires thorough understanding of the complex social and political contradictions which have ensued from colonial and post colonial land policies as well as from Africa's development and capital accumulation trajectories especially with regard to the land rights of the continent's poor The study thus questions the capacity of

emerging neo liberal economic and political regimes in Africa to deliver land reforms which address growing inequality and poverty It equally questions the understanding of the nature of popular demands for land reforms by African states and their ability to address these demands under the current global political and economic structures dictated by neo liberalism and its narrow regime of ownership The study invites scholars and policy makers to creatively draw on the specific historical trajectories and contemporary expression of the land and agrarian questions in Africa to enrich both theory and practice on land in Africa
