Agenda Biblica 2005:

The End of Biblical Studies Hector Avalos, 2010-08-05 In this radical critique of his own academic specialty biblical scholar Hector Avalos urges his colleagues to concentrate on educating the broader society to recognize the irrelevance and even violent effects of the Bible in modern life International Review of Biblical Studies BRILL ACADEMIC PUB, Bernhard Lang, 2007 Formerly known by its subtitle Internationale Zeitschriftenschau f r Bibelwissenschaft und Grenzgebiete the International Review of Biblical Studies has served the scholarly community ever since its inception in the early 1950 s Each annual volume includes approximately 2 000 abstracts and summaries of articles and books that deal with the Bible and related literature including the Dead Sea Scrolls Pseudepigrapha Non canonical gospels and ancient Near Eastern writings The abstracts which may be in English German or French are arranged thematically under headings such as e g Genesis Matthew Greek language text and textual criticism exegetical methods and approaches biblical theology social and religious institutions biblical personalities history of Israel and early Judaism and so on The articles and books that are abstracted and reviewed are collected annually by an international team of collaborators from over 300 of the most important periodicals and book series in the fields covered A Severe Mercy Mark J. Boda, 2009-06-30 The biblical theological approach Boda takes in this work is canonical thematic tracing the presentation of the theology of sin and its remedy in the canonical form and shape of the Old Testament The hermeneutical foundations for this enterprise have been laid by others in past decades especially by Brevard Childs in his groundbreaking work But A Severe Mercy also reflects recent approaches to integrating biblical understanding with other methodologies in addition to Childs s Thus it enters the imaginative space of the ancient canon of the Old Testament in order to highlight the word views and literary shapes of the texts taken individually and as a whole collection For the literary shape of the individual texts it places the word views of the dominant expressions and images as well as various passages in the larger context of the biblical books in which they are found For the literary shape of the texts as a collection it identifies key subthemes and traces their development through the Old Testament canon The breadth of Boda s study is both challenging and courageous resulting in the first comprehensive examination of the topic in the 21st century **Biblical Corpora** Rebecca Raphael, 2009-05-15 The book is organized by genre of biblical literature First the priestly literature articulates a binary concept of disability as impure and passive i e as other to the pure holy and active By contrast in the prophetic literature and the Psalms images of disability structure communication among God prophets leaders and people Here disability does not simply mean impurity its valuation depends on its possessor Wisdom literature and narrative present figures e g Job Mephibosheth whose innate or acquired disabilities are nevertheless placed and not simply as impurities within cosmic and social order Although priestly literature seems anomalous all strata of biblical literature use disability imagery not primarily to represent disabled persons but mainly to represent the power of Israel s God Physical norms and disability thus play a pervasive and previously neglected role in biblical categories of holy unholy pure

impure election rejection and God idols This book provides a literary critical method focused on representation in the canonical form of the text allows a comprehensive view of how images of disability operate in relation to major concepts and also provides a foundation for studies in the history of interpretation All discussion of biblical passages and books draw on existing historical studies as a necessary precondition for understanding *The Zionist Bible* Nur Masalha, 2014-10-20

Throughout the history of European imperialism the grand narratives of the Bible have been used to justify settler colonialism The Zionist Bible explores the ways in which modern political Zionism and Israeli militarism have used the Bible notably the Book of Joshua and its description of the entry of the Israelites into the Promised Land as an agent of oppression and to support settler colonialism in Palestine The rise of messianic Zionism in the late 1960s saw the beginnings of a Jewish theology of zealotocracy based on the militant land traditions of the Bible and justifying the destruction of the previous inhabitants The Zionist Bible examines how the birth and growth of the State of Israel has been shaped by this Zionist reading of the Bible how it has refashioned Israeli Jewish collective memory erased and renamed Palestinian topography and how critical responses to this reading have challenged both Jewish and Palestinian nationalism Bible and Justice Matthew J. M. Coomber, 2016-04-01

The Bible contains a variety of passages that defend the poor and champion the cause of the oppressed but are these ancient texts able to find a voice in confronting injustice in the modern world Bible and Justice examines the ways in which the Bible can speak to contemporary poverty environmental issues and state sponsored violence whilst exploring the difficulties that arise when ancient concepts of justice are applied to modern ideals The book covers a range of topics from human rights to deaf biblical interpretation and from hospitality to corporate globalization Broad and accessible Bible and Justice will be an invaluable resource for students of religious and biblical studies Postcolonial Perspectives in African Biblical Interpretations Musa W. Dube, Andrew M. Mbuvi, Dora R. Mbuwayesango, 2024-01-30

This volume foregrounds biblical interpretation within the African history of colonial contact from North Atlantic slavery to the current era of globalization It reads of the prolonged struggle for justice and of hybrid identities from multifaceted contexts where the Bible co exists with African Indigenous Religions Islam and other religions Showcasing the dynamic and creative approaches of an emerging and thriving community of biblical scholarship from the African continent and African diaspora the volume critically examines the interaction of biblical texts with African people and their cultures within a postcolonial framework While employing feminist womanist postcolonial Afrocentric social engagement creative writing reconstruction and HIV AIDS perspectives the authors all engage with empire in their own ways in specific times forms and geography This volume is an important addition to postcolonial and empires studies in biblical scholarship The contributors are David Tuesday Adamo Lynn Darden H J M Hans van Deventer Musa W Dube John D K Ekem Ernest M Ezeogu Elelwani B Farisani Sylvester A Johnson Emmanuel Katongole Malebogo Kgalemang Temba L J Mafico Madipoane Masenya ngwan a Mphahlele Andrew M Mbuvi Sarojini Nadar Elivered Nasambu Mulongo Jeremy Punt Gerrie Snyman Lovemore Togarasei Sam Tshehla
