Biological Effects Of Surfactants:

Biological Effects of Surfactants S.A. Ostroumov, 2005-12-15 Offering a new perspective on the hazards of pollution Biological Effects of Surfactants examines the effects of anionic non ionic cationic surfactants and detergents on a wide range of organisms populations communities and ecosystems The author establishes new quantitative characteristics of the effects and presents study results on newly discovered phenomena While proposing and substantiating new priorities and approaches for testing assessing and characterizing the biological activities and hazards of substances the book illustrates how the data obtained can be used to develop effective environmental remediation and protection measures to improve water quality Biological Effects of Surfactants Robert Ernst, 1979

Environmental and Human Safety of Major Surfactants Sylvia S. Talmage, 2020-04-08 The book summarizes and reviews the environmental and human safety of two classes of nonionic surfactants alcohol ethoxylates AE and alkylphenol ethoxylates APE This unique resource contains critical data from published sources as well as from unpublished studies submitted by Soap and Detergent Association member companies It reviews information on product chemistry and analysis biodegradation environmental levels including fate and distribution aquatic toxicity and human safety Recently developed analytical techniques for the extraction separation detection and measurement of nonionic surfactants and their metabolites in environmental samples are described Results of biodegradation studies performed with a variety of test systems are tabulated as are results of field studies at wastewater treatment plants Reported comparisons of environmental levels with results of acute and chronic aquatic toxicity tests are provided The information on the toxicity and irritation potential of AE and APE surfactants includes data from in vitro mammalian and human studies

Surfactants in Consumer Products Jürgen Falbe, 2012-12-06 In to days market custom formulated surfactants are offered for a wide range of applications The need for surfactants in detergents cleaning agents cosmetics toiletries is second only to an expanding demand in industrial applications But even within the non industrial areas the demands have undergone significant changes in recent years For example washing and cleaning temperatures have substantially decreased with increased energy conservation attitudes and more stringent regulatory requirements in the area of ecology and toxicology are leading to new product profiles New manufacturing technologies and an increased utilization of natural raw materials also factor into this continuing evolution These changes and trends have been described in numerous publications However a summary and survey of these developments is currently missing The book presented here Surfactants in Consumer Products is intended to close this gap The editor and authors dedicate this work to Dr Dr h c Konrad Henkel on the occasion of his 70th birthday Dr Henkel himself a scientist and industrialist contributed significantly to developments in the surfactant field In the nineteen fifties he initiated the change from soap based detergents to synthetic detergents within Henkel At the same time dishwashing detergents utilizing various synthetic surfactants were also developed and became the basis for modern manual and mechanical dishwashing Adjuvants for Agrichemicals Chester L.
