The Art of the Critic: Late Renaissance Harold Bloom,1985 *The Art of the Critic: Later nineteenth century* Harold Bloom,1989 **The Critic** ,1891 **The Critic** Jeannette Leonard Gilder,Joseph Benson Gilder,1902 **The Role of the Critic** Nicholas Dromgoole,2012-06-18 Nicholas Dromgoole has been a prominent and respected drama and dance critic for most of his adult life Who better therefore to take the reader through the role of this often misunderstood animal This concise guide to the role of the critic will surely prove to be a great addition to the bookshelves of all theatre lovers *The Critic as Artist* Oscar Wilde,2019-05-21 In *The Critic as Artist* arguably the most complete exploration of his aesthetic thinking and certainly the most entertaining Oscar Wilde harnesses his famous wit to demolish the supposed boundary between art and criticism Subtitled *Upon the Importance of Doing Nothing and Discussing Everything* the essay takes the form of a leisurely dialogue between two characters Ernest who insists upon Wilde s own belief in art s freedom from societal mandates and values and a quizzical Gilbert With his playwright s ear for dialogue Wilde champions idleness and contemplation as prerequisites to artistic cultivation Beyond the well known dictum of art for art s sake Wilde s originality lays argument for the equality of criticism and art For him criticism is not subject to the work of art but can in fact precede it the artist cannot create without engaging his or her critical faculties first And as Wilde writes To the critic the work of art is simply a suggestion for a new work of his own The field of art and criticism should be open to the free play of the mind but Wilde plays seriously even prophetically Writing in 1891 he foresaw that criticism would have an increasingly important role as the need to make sense of what we see increases with the complexities of modern life It is only the fine perception and explication of beauty Wilde suggests that will allow us to create meaning joy empathy and peace out of the chaos of facts and reality **The Age of Criticism** Baxter Hathaway,2019-06-30 In *The Age of Criticism* five key concepts of the literary criticism synthesized in the late Renaissance in Italy are examined in depth to show how the shape of literary attitudes in the whole modern world was considerably influenced and determined by sixteenth century Italian philosophers and literary theorists The five concepts examined are poetry as imitation poetry as a concrete universal poetry as a purgation the poetic imagination and the conflict between poetry as art and poetry as furor For the sake of emphasizing the unity of the development of literary theory the concern is almost entirely with the Italian writers of the period between 1540 and 1613 but the ultimate significance of their work lies in their contribution to the development of the culture of the West in modern times Sperone Speroni Ludovico Castelvetro Francesco Patrizi Giacompo Mazzoni Torquato Tasso and Paolo Beni emerge as literary critics of major importance *A History of Modern Criticism 1750-1950: Volume 1, The Later Eighteenth Century* René Wellek,1981-08-13 Vol 2 is missing from the series **Criticism and Confession** Nicholas Hardy,2017 The period between the late Renaissance and the early Enlightenment has long been regarded as the zenith of the republic of letters a pan European community of like minded scholars and intellectuals who fostered critical approaches to the study of the Bible

and other ancient texts while renouncing the brutal religio political disputes that were tearing their continent apart at the same time Criticism and Confession offers an unprecedentedly comprehensive challenge to this account Throughout this period all forms of biblical scholarship were intended to contribute to theological debates rather than defusing or transcending them and meaningful collaboration between scholars of different confessions was an exception rather than the norm Neutrality was a fiction that obscured the ways in which scholarship served the interests of ecclesiastical and political institutions Scholarly practices varied from one confessional context to another and the progress of criticism was never straightforward The study demonstrates this by placing scholarly works in dialogue with works of dogmatic theology and comparing examples from multiple confessional and national contexts It offers major revisionist treatments of canonical figures in the history of scholarship such as Joseph Scaliger Isaac Casaubon John Selden Hugo Grotius and Louis Cappel based on unstudied archival as well as printed sources and it places those figures alongside their more marginal overlooked counterparts It also contextualizes scholarly correspondence and other forms of intellectual exchange by considering them alongside the records of political and ecclesiastical bodies Throughout the study combines the methods of the history of scholarship with techniques drawn from other fields including literary political and religious history As well as presenting a new history of seventeenth century biblical criticism it also critiques modern scholarly assumptions about the relationships between erudition humanistic culture political activism and religious identity
