The Immortal Mind Michael Egnor, Denyse O'Leary, 2025-06-03 A neuroscientist and surgeon makes an argument for the existence of a spiritual human soul in this eye opening book Many scientists and doctors believe that there is no such thing as the soul That there is no part of us that persists beyond death We are not spiritual in any respect We are made up of cells and tissue and completely controlled by a material organ in our heads the brain In this groundbreaking book Dr Michael Egnor makes the case based on 40 years of practice and over 7 000 brain surgeries that science has gotten it all wrong The human brain is incredible mysterious and powerful But it's not what makes us who we are The soul does that Drawing on the most important research studies in neuroscience Dr Egnor presents evidence that the brain alone does not explain the mind He explores using modern neuroscience and his vast surgical experience how inside every damaged brain there is a thinking feeling person with a spiritual soul that transcends the brain He also uses fascinating case studies to show how research on conjoined twins who share parts of their brains on patients in deep coma who are still able to communicate with people around them on near death experiences and on artificial intelligence all make a scientific case for the existence of the spiritual human soul Engaging thought provoking and groundbreaking *The Immortal Mind* shows here that some aspect of who we are is spiritual and immortal transcending the physical body

What Happens When We Die? Margarete van den Brink,Hans Stolp,2017-06-21 Is there truly life beyond death What really happens when we die Can the living stay connected with or even help their loved ones who have passed on Answers to these questions have traditionally been sought for in Eastern religions but perhaps surprisingly for some they can also be found within the Christian tradition In fact such knowledge was prevalent in early Christianity but was gradually suppressed and eventually forgotten Turning to hidden esoteric sources that reveal lost meanings within the Bible the Dead Sea Scrolls and other Gnostic texts Hans Stolp and Margarete van den Brink describe the world of light that exists beyond death and the seven steps needed to progress through its realms The authors draw on near death experiences as well as the many profound personal encounters with deceased friends and family members described by people in recent times With this knowledge together with Rudolf Steiner s research they offer answers to the following questions What is the world beyond death really like and what tasks await us there Why is love and wisdom gained in life on earth so important in the afterlife How can the living help or hinder the dead How do the departed themselves help loved ones who are left behind How does the Christ sustain the dead as they review their previous life and prepare for the next This is an extraordinary guide to understanding what happens after death It also offers invaluable advice on staying connected to our loved ones who have passed on
