Advances In Qualitative Organization Research Volume 3:

Qualitative Organizational Research - Volume 3 Beth A. Bechky, Kimberly D. Elsbach, 2016-02-01 The Davis Conference on Organizational Research held for the last 15 years is the world's leading conference for qualitative researchers in organizational studies. Scholars receiving the Best presentation awards at the Davis Conference for the past 6 years have contributed chapters to this volume. These papers explore social relationships in organizations and work and cover a diverse set of topics ranging from boundary spanning in collaboration and teamwork to embodied competence at work and beliefs about availability among professionals. Yet all the papers are similar in that they benefited from the community of over 150 scholars developed through the Davis Conference and represent qualitative research at its very best. **EJBRM Volume 8 Issue 2**, *Psychology In India. Volume 2: Social And Organizational Processes* Girishwar Misra, 2009-09 Revised version of papers presented at the National Workshop for Fifth ICSSR Survey of Psychological Research held at Delhi during 23-24 October 2006. *Current Topics in Management* Robert Golembiewski, 2018-02-06 This annual series presents research on the theory and practice of management. Volume 9 includes papers presented at the 2003 joint conference of the International Conference on Advances in Management (ICAM) and Korean Association of Public Administration. This volume exemplifies ICAM's comparative orientation in its broad scope of management perspectives in its diverse locations of its research as well as its application and in its comparisons of findings, methodologies, and operational definitions. Part 1 Organization Theory Change and Effectiveness discusses the relationship between ethical orientation and crisis management before and after the World Trade Center attacks and high success rates of organizational development and modern Hindu work ethics. Part 2 Behavior and Attitudes in Organizations offers a nuanced perspective on organization's behavior: academic wisdom versus practical realities in organization and regulatory focus as a determinant of occupational status. Part 3 Business and Society Ethics and Values looks at crises in corporations and government due to corruption and unethical behavior. Part 4 International and Cross Cultural Management looks at studies on leader power and how it is associated with subordinates, conflict management strategies, and propensity to leave a job in four countries; the role of commitment to change as it is associated with reaction to organizational change in India; and effective management of interdepartmental conflict in Greece. Part 5 looks at the number of levels in multi-level organizational research. This volume will be of particular interest to corporate executives, economists, and labor studies specialists.
