Savitch, John Clayton Thomas, 1991-06-14 *Big City Politics in Transition* is a good reference volume packed with much important and up to date information Environment and Planning A timely book that revisits the field so well described by Edward Banfield *Big City Politics* 1965 as of the early 1960s but which has changed greatly since then Each profile shows a high level of research and the notes provide a thorough bibliography of the literature A tremendously useful book for readers at all levels Choice This book was inspired by Edward Banfield's *Big City Politics* of 1965 In *Big City Politics in Transition* the introduction amply justifies the need for a new volume This multiauthored volume examines thirteen cities Boston Philadelphia Chicago Detroit Saint Louis Atlanta Miami New Orleans Denver Houston Los Angeles San Francisco and Seattle Each chapter traces the economic social and political changes since 1965 and current political problems It is impossible to do justice to all thirteen studies in a short review but this book represents a very useful summation of the current state of the major US cities Environment and Planning C In 1965 *Big City Politics* ambitiously attempted to describe the workings of America's big cities using nine large U S cities as examples By the time it was published urban racial conflict declining economic power and growing concentrations of low income populations had changed the face of the urban political scene *Big City Politics in Transition* examines how government and administration in America's largest cities have changed between 1960 and 1990 The contributors to this intriguing volume trace demographic and economic change over this vital and at times turbulent period explaining what those changes mean for politics policies and the general quality of life The chapters address the demographics and economic base of the cities under consideration the role and structure of city government including interaction with state houses suburbs and Washington DC and the roles played by interest groups and political influentials The cities profiled include Boston Philadelphia Chicago Detroit St Louis Atlanta Miami New Orleans Denver Houston Los Angeles San Francisco and Seattle Underlying these concerns is an examination of the political character of the city the composition and cohesion of the coalitions groups organizations and individual actors that shape major decisions A balanced and insightful look at urban politics in the late 20th century this volume will enlighten academics and professionals in urban studies policy studies and political science **Chicano Politics and Society in the Late Twentieth Century** David Montejano, 2010-05-28 The various protest movements that together constituted the Chicano Movement of the 1960s and 1970s urged a politics of inclusion to bring Mexican Americans into the mainstream of United States political and social life This volume of ten specially commissioned essays assesses the post movement years asking what went wrong what went right and where are we now Collectively the essays offer a wide ranging portrayal of the complex situation of Mexican Americans as the twenty first century begins The essays are grouped into community institutional and general studies with an introduction by editor Montejano Geographically they point to the importance of Hispanic politics in the Southwest as well

as in Chicago wards and in the U S Congress with ramifications in Mexico and Central America Thematically they discuss non traditional politics stemming from gender identity environmental issues theatre production labor organizing university policymaking along with the more traditional politics revolving around state and city government the Congressional Hispanic Caucus and various advocacy organizations **Big-city Politics, Governance, and Fiscal Constraints** George E.

Peterson,1994 Big city mayors and other political leaders face the triple challenge of assembling a winning political coalition translating this into an effective governing coalition and coping with a tightening local budget constraint The challenge is still greater when elections have produced a change in ethnic control of local government bringing into power new groups that want to use government spending to serve their constituents demands but are resisted by those controlling the economic resources This volume explores the political transition now going on in big cities One group of chapters examines recent electoral politics in Chicago Philadelphia Los Angeles Miami and San Antonio where different types of ethnic and class lines have been drawn and where different strategies have been employed to adjust political machines to the new realities A second group of chapters considers the business of governing under the conflicting pressures of community organizations the press the business community and higher levels of government A final group of chapters examines the fiscal and budgetary constraints upon big city governments and the difficulty that these governments no matter how well motivated face in generating jobs and economic opportunity for their political constituents Class and Space (RLE Social Theory) Nigel

Thrift,Peter Williams,2014-09-04 This book is about the place of space in the study of class formation It consists of a set of papers that fix on different aspects of the human geography of class formation at different points in the history of Britain and the United States over the course of the last 200 years The book shows that the geography of class formation is a valuable and cross disciplinary tool in the study of modern societies integrating the work of human geographers with that of social historians sociologists social anthropologists and other social scientists in an enterprise which emphasises the essential unity of social science **Challenging the Growth Machine** Barbara Ferman,1996 Economic development and urban growth

are the contested grounds of urban politics Business elites and politicians tend to forge pro growth coalitions centered around downtown development while progressive and neighborhood activists counter with a more balanced approach that features a strong neighborhood component Urban politics is often shaped by this conflict which has intellectual as well as practical dimensions In some cities neighborhood interests have triumphed in others the pro growth agenda has prevailed In this illuminating comparative study Barbara Ferman demonstrates why neighborhood challenges to pro growth politics were much more successful in Pittsburgh than they were in Chicago Operating largely in the civic arena Pittsburgh's neighborhood groups encountered a political culture and institutional structure conducive to empowering neighborhood progressivism in housing and economic development policymaking In contrast the pro growth agenda in Chicago was challenged in the electoral arena which was dominated by machine ward based politicians who regarded any independent

neighborhood organizing as a threat. Consequently neighborhood demands for policymaking input were usually thwarted. Besides revealing why the development policies of two important American cities diverged, Ferman's unique comparative approach to this issue significantly expands the scope of urban analysis. Among other things, it provides the first serious study to incorporate the civic sector neighborhood politics as an important component of urban regimes. Ferman also emphasizes institutional and cultural factors often ignored or relegated to residual roles in other studies and expounds on their influence in shaping local politics and policy. To add an analytical and normative dimension to urban analysis, she focuses on the non-elite actors, not just the economic and political elites who compose governing coalitions. Ultimately, Ferman takes a more holistic and balanced view of large cities than is typical for urban studies, as she argues that neighborhoods are an important integral part of what cities are and can be. For that reason, especially, her work will have a profound impact upon our understanding of urban politics.

Mayors in the Middle Jeffrey R. Henig, Wilbur C. Rich, 2020-12-08. Desperate to jump start the reform process in America's urban schools, politicians, scholars, and school advocates are looking increasingly to mayors for leadership. But does a stronger mayoral role represent bold institutional change with real potential to improve big city schools, or just the latest in the copycat world of school reform du jour? Is it democratic? Why have efforts to put mayors in charge so often generated resistance along racial dividing lines? Public debate and scholarly analysis have shied away from confronting such issues head on. *Mayors in the Middle* brings together for students of education policy and urban politics, as well as scholars and school advocates, the most thoughtful and original analyses of the promise and limitations of mayoral takeovers of schools. Reflecting on the experience of six cities: Baltimore, Boston, Chicago, Detroit, Cleveland, and Washington D.C., ten of the nation's leading experts on education politics tackle the question of whether putting mayors in charge is a step in the right direction. Through the case studies and the wide-ranging essays that follow and build upon them, the contributors Stefanie Chambers, Jeffrey R. Henig, Kenneth J. Meier, Jeffrey Mirel, Marion Orr, John Portz, Wilbur C. Rich, Dorothy Shipps, and Clarence N. Stone begin the process of answering questions critical to the future of inner-city children: the prospects for urban revitalization and the shape of American education in the years to come.

Nobody Calls Just to Say Hello Philip J. Rock, Ed Wojcicki, 2012. A loyal partisan and highly principled public official whose career overlapped with those of many legends of Illinois politics, including Mayor Richard J. Daley, Governor James Thompson, and Illinois House Speaker Michael Madigan, Democrat Philip J. Rock served twenty-two years in the Illinois Senate. Fourteen of those years were spent as senate president, the longest tenure anyone has served in that position. This nuanced political biography, which draws on dozens of interviews conducted by Ed Wojcicki to present the longtime senate president's story in his own words, is also a rare insider's perspective on Illinois politics in the last three decades of the twentieth century. A native of Chicago's West Side, Rock became one of the most influential politicians in Illinois during the 1970s and 1980s. As a senator in the 1970s and senate president from 1979 to 1993, he sponsored historic legislation to assist abused and neglected children and victims of

domestic violence ushered the state through difficult income tax increases and economic development decisions shepherded an unruly and fragmented Democratic senate caucus and always was fair to his Republican counterparts Covering in great detail a critical period in Illinois political history for the first time Rock explains how making life better for others drove his decisions in office while also espousing the seven principles he advocates for effective leadership and providing context for how he applied those principles to the legislative battles of the era Unlike many Illinois politicians Rock a former seminarian was known for having a greater interest in issues than in partisan politics Considered a true statesman he also was known as a skilled orator who could silence a busy floor of legislators with his commentary on important issues and as a devoted public servant who handled tens of thousands of bills and sponsored nearly five hundred of them himself Nobody Calls Just to Say Hello which takes its title from the volume of calls and visits to elected officials from constituents in need of help perfectly captures Rock s profound reverence for the institutions of government his respect for other government offices and his reputation as a problem solver who despite his ardent Democratic beliefs disavowed political self preservation to cross party lines and make government work for the people Taking readers through his legislative successes bipartisan efforts and political defeats including a heartbreaking loss in the U S Senate primary to Paul Simon in 1984 Rock passionately articulates his belief that government s primary role is to help people offering an antidote to the current political climate with the simple legislative advice Just try to be fair give everyone a chance and everything else comes after that *Illinois Politics & Government* Samuel Kimball Gove,1996-01-01 Since the end of World War II the primary political regions of Illinois Chicago and downstate have lost population wealth and political power to a third region the suburban collar which has relentlessly expanded outward from Chicago At the same time legislative service has changed from a largely part time citizen activity into a professional career oriented pursuit Parochial perspectives of elected officials have intensified as reflected in candidates promises to deliver their districts fair share of government spending The state legislature has become an arena in which each region battles for its own fair share rather than an instrument for comprehensively addressing the state s problems The authors foresee the emergence of political coalitions linking downstate and Chicago historically at odds in efforts to protect their shares and contend with the suburban collar Illinois s political leaders face the challenge of looking beyond district interests to the broader concerns of work force quality and statewide economic prosperity Samuel K Gove is Director Emeritus at the Institute of Government and Public Affairs and Professor Emeritus of Political Science at the University of Illinois He is coeditor with Louis H Masotti of *After Daley Chicago Politics in Transition* James D Nowlan is an adjunct professor of public policy at Knox College and a Senior Fellow with the University of Illinois Institute of Government and Public Affairs He is the author of *A New Game Plan for Illinois* **Latino Crossings** Nicholas De Genova,Ana Yolanda Ramos-Zayas,2004-08-02 First published in 2003 Routledge is an imprint of Taylor Francis an informa company
