Advances In Roumanian Linguistics Linguistik Aktuelllinguistics Today 10:

Advances in Roumanian Linguistics Guglielmo Cinque, Giuliana Giusti, 1995-04-13 The aim of the book is to collect and make available to the public recent studies on Roumanian in the framework of Generative Grammar All the studies can be considered as highly advanced from both the empirical and the theoretical point of view In fact they deal with many of the phenomena that differentiate this language from other well studied ones adopting and further improving recent developments in linguistic theory In this respect the book contributes both to Roumanian studies and to theoretical linguistics These studies cover major areas of general syntactic investigation the syntax of nominal expressions Giusti on determiners Grosu on free relative clauses clausal structure Motapanyane clitic placement Dobrovie Sorin and morpho semantics Farka and Zec In so doing they address the problems of the definition and refinement of the theory of functional projections contributing new ideas and evidence for their formulation *A Reference Grammar of Romanian* Carmen Dobrovie-Sorin, Ion Giurgea, 2013-11-15 Based on recent research in formal linguistics this volume provides a thorough description of the whole system of Romanian Noun Phrases understood in an extended sense that is in addition to nouns pronouns and determiners it examines all the adnominal phrases genitive marked DPs adjectives relative clauses appositions prepositional phrases complement clauses and non finite modifiers The book focuses on syntax and the syntax semantics interface but also includes a systematic morphological description of the language The implicitly comparative description of Romanian contained in the book can serve as a starting point for the study of the syntax semantics of Noun Phrases in other languages regardless of whether or not they are typologically related to Romanian This book will be of special interest to linguists working on Romanian Romance languages comparative linguistics and language typology especially because Romanian is relevant for comparative linguistics not only as a Romance language but also as part of the so called Balkan Sprachbund **Balkan Sprachbund Morpho-Syntactic Features** Olga M. Tomic, 2006-09-13 At the end of 1998 Professor Pieter Muysken was awarded the Spinoza prize of the Netherlands Organization of Scientific Research NOW and set up a research program entitled Lexicon and Syntax The implementation of the Program started in the autumn of 1999 with research on the lexicon and syntax in a number of areas where contacts between 1 different languages are intensive For the languages of many of the areas selected basic data had to be collected For most of the languages of the Balkan Sprachbund area however there are grammars and dictionaries Moreover quite a number of studies of the Balkan Sprachbund features have been published Accordingly when I joined the team of the Project I aimed at a description of the state of art in the field After several months of research I realized that Balkanists have mainly been concerned with compiling lists of similarities and making parallels between the lexical and grammatical forms of the Balkan languages while analyses of the interaction of the Balkan Sprachbund morpho syntactic features with other features in the structure of the DP or the sentence of a given language dialect are scarce This oriented me towards descriptions of Balkan Sprachbund morpho syntactic features in the

context of individual sub systems in nine Balkan language to which they relate the Slavic languages Macedonian Bulgarian and Serbo Croatian the Romance languages Romanian Aromanian and Megleno Romanian Albanian Modern Greek and the Arli Balkan Romani dialect **Romance Languages and Linguistic Theory 2009** Janine Berns, Haike Jacobs, Tobias Scheer, 2011 The annual Going Romance conference has developed into the major European discussion forum for theoretically relevant research on Romance languages where current ideas about language in general and about Romance languages in particular are tested The twenty third Going Romance conference was a very special one for the first time it was not hosted by one of the Dutch universities but was co organized by the Radboud University Nijmegen and the Universit de Nice Sophia Antipolis and held in France at the Maison du S minaire in Nice from 3 5 December 2009 The present volume contains a broad range of peer reviewed articles dealing with syntax phonology morphology semantics and acquisition of the Romance languages as well as selected papers from the special workshop dealing with linguistic change in relation to linguistic theory Comparative Romance Linguistics Newsletter , 1999 *Relational Adjectives in Romance and English* Mihaela Marchis Moreno, 2018-04-19 Discusses a special case of syntax morphology mismatch that puzzles current traditional morphological theories the case of relational adjectives across languages **Adjectives in Germanic and Romance** Petra Sleeman, Freek Van de Velde, Harry Perridon, 2014-02-15 Although the Germanic and Romance languages are two branches of the same language family and although both have developed the adjective as a separate syntactic and morphological category the syntax morphology and interpretation of adjectives is by no means the same in these two language groups and there is even variation within each of the language groups One of the main aims of this volume is to map the differences and similarities in syntactic behavior morphology and meaning of the Germanic and Romance adjective and to find an answer to the following question Are the dissimilarities the result of autonomous developments in each of the two branches of the Indo European language family or are they caused by language contact Language , 1997

Theoretical Analyses on Romance Languages José Lema, Esthela Treviño, 1998-01-01 From the papers presented at the 26th LSRL this volume offers a selection of a contributions on phonological issues and on syntax Most of the grammatical phenomena discussed are treated within the frameworks of the Minimalist Program Distributed Morphology or Optimality Theory It was apparent from the diversity of the papers delivered that these approaches are exposing novel phenomena which enrich and widen our knowledge and understanding of language The analyses undertaken in these articles range over a variety of dialects of Romance languages *On space and time in language* Martine Coene, Liliane Tasmowski, 2005
