Wilken,2004-10-14 John Chrysostom the golden mouth the greatest preacher in the early church and a key figure during the transition from the ancient to the Byzantine and medieval worlds is known as a vehement critic of the Jews In this study Robert Wilken presents a new interpretation of John s homilies

against the Jews setting them in the context of the pluralistic society of fourth century Antioch and against the tradition of ancient rhetoric In reading John s homilies Wilken argues we must not impose on them the anti Jewish attitudes of medieval times when Christianity was the dominant force in the West and Judaism was a minority religion In John s time Christianity was only one and by no means the most self assured of the cultural forces in Antioch It had to compete with an established Jewish community and with the classical pagan tradition that underlay education and public life In 363 the Roman emperor Julian who had apostatized Christianity to embrace the traditional pagan religion attempted to rebuild the Jewish Temple in Jerusalem He terrified the Christians who saw in the Temple s ruins proof of the truth of their religion Wilken examines John s sermons against this atmosphere of intense religious rivalry and lively polemic between Christians Jews and pagans His book calls not only for a fresh look at John Chrysostom but also for a reconsideration of the continued importance of Judaism in late antique society and in the history of Christianity Its conclusions will be of interest to historians and theologians and to participants in the present day Jewish Christian dialogue
