Biohacking: Biohacking Tips for a Smoother Transition (The Toxic Environment Threatening Human Health and Extraordinary Way the Body Communicates Health Longevity) Phil Nelson, 101-01-01 The journey to success is a bumpy and uneven road. It is never straight or clear cut. There are people who seem to be successful at whatever they do while others seem to work hard but never get anywhere in life. This book takes a dynamic new approach to achieving all of your hopes and dreams in that it goes in depth to the inner workings of your central nervous system, your brain, and helps you to reprogram missing aspects keeping you from achieving your life's ambitions. Come with us on this interactive journey in discovering the principles that other successful individuals utilize daily and how to literally become this as well. The sky is the limit. This book will break those limits as we Bio Hack your brain into becoming successful in all aspects of your life. What you'll discover is why the author dedicated countless hours to learning how at the most fundamental level the body protects and preserves itself. Why the author decided to write this short book after watching a documentary about harmful household products. A quick glimpse of how prevalent and severe environmental toxins are to human health. Learn the key way the body communicates with itself to maintain homeostasis, repair damage, and maintain vitality to stay healthy. Deciding to use medical/aesthetic treatments can feel like a big deal. But here's the thing: These treatments aren't just about looking good; they can actually help you feel good. Treatments aren't just about treating skin concerns; they're a confidence-boosting game changer. With this book as your guide, you can be sure you have the scoop on the science behind these treatments so you can make an informed decision that's right for you.

Biohackers Magazine , First impressions seem to always get the better of us Quick judgments about others ourselves and our communities never seem to cease making their presence known in our minds Psychologically these initial assumptions and impressions that our mind receives are tactics our mind uses as a means of survival sometimes aligning with our intuition to help us determine what or who is going to be helpful or harmful But we must be careful here Our mind is equipped to handle countless sensations and thoughts and due to this we sometimes get so bogged down by this demanding busy world that we take the easy way out and make a judgment based solely on superficial knowledge without any deeper reflection or analysis The world is fast paced and although our mind does well to keep up it needs to be able to consciously recognize that our health both individual and as human beings is dependent on the strive to understand oneself and the other with empathy and compassion COVID 19 has shed a new spotlight on the increasing mental health crisis that is facing our world and I believe that one of the main causes is careless thinking that leads to quick assumptions to save oneself the time of research and contemplation Don't let others think for you Yes respect those with the authority to offer professional opinions but don't be a follower be a student and learn from every experience When your health seems to suffer

don't assume the worst When someone comes at you the wrong way don't write them off as a heartless soul When you have a tough interaction with someone representing another community don't assume that everyone else is like that Instead look for the best in yourself others and the community There is the power behind the phrase Love thy neighbor When we treat every person that we come across as our neighbor we break down the prideful barriers that ABOUT DALLAS MCCLAIN Born in the USA Dallas is a passionate reader of theological and personal development books He is a devout Catholic Christian and enjoys time outdoors while being a tennis enthusiast He is the Chief Financial Officer and Editor of Biohackers Update Magazine and the co-founder He holds a bachelor's degree in Biological Sciences as well as a TEFL level 5 certificate in teaching English He is currently living in Orlando Florida with his wife daughter and son where he enjoys writing sports and nature hikes in his free time Dallas can best be reached at his email dallas.biohackersupdate@gmail.com lead to alienation and instead open the gates to continued togetherness and participation in a loving community I think too often we as biohackers focus more on the physical side of things which is of course important but does not truly define what it means to be human The human person is a compositum of both mind and body Spiritual and Corporeal substance When biohacking ourselves let's remember to start with the intention of acting out of love for thyself of thy neighbor and of thy community There will always be disagreements between people but when we see the other person as our neighbor as another one of us so to speak we offer respect and extinguish any hatred and sinful intentions from the relationship thus creating a peaceful happier and more vibrant environment to foster a healthy mind that's prepared for whatever the onerous world throws at it
