Visotzky, 2021-02-10 Judaism the oldest of the Abrahamic religions is one of the pillars of modern civilization A collective of internationally renowned experts cooperated in a singular academic enterprise to portray Judaism from its transformation as a Temple cult to its broad contemporary varieties In three volumes the long running book series *Die Religionen der Menschheit* Religions of Humanity presents for the first time a complete and compelling view on Jewish life now and then a fascinating portrait of the Jewish people with its ability to adapt itself to most different cultural settings always maintaining its strong and unique identity Volume II presents Jewish literature and thinking the Jewish Bible Hellenistic Tannaitic Amoraic and Gaonic literature to medieval and modern genres Chapters on mysticism Piyyut Liturgy and Prayer complete the volume *Claude Jutra* Jim Leach, 1999 Claude Jutra best known as the director of *Mon oncle Antoine* has been widely acclaimed as one of Canada s premier filmmakers Despite this there has been surprisingly little critical writing about his work and the context in which it was created and viewed Jutra was a Quebec nationalist and both he and his films were shaped by the changes in Quebec society during the Quiet Revolution and by the political tensions of the sixties and seventies Though he died in 1986 his films still have much to tell us about Canadian cinema and the ongoing debates on Canadian and Quebec nationhood Book jacket **Jewish Education and Learning** Glenda Abramson, Tudor Parfitt, 2018-12-07 First published in 1994 This volume dedicated to Dr David Patterson founding President of the Oxford Centre for Postgraduate Hebrew Studies takes as its theme Jewish education and learning throughout the ages But it is the Academy interpreted here to mean an institution of Judaic scholarship which dominates this collection of essays For almost three thousand years centres of Jewish learning have flourished in many parts of the world

This volume discusses these institutions from biblical times to the present From the time of the Mishnaic Academy at Yavneh established in the first century CE the academies were more than schools of higher religious education They incorporated rational analysis of the scriptures the natural sciences and other secular studies Some of the most celebrated academies such as those in Cairo and Tunisia and later in the Iberian Peninsula were of a very high intellectual order sometimes superior to the great Christian universities It was at these institutions that the great Jewish legal and literary works were written and completed This collection of essays has been written by outstanding scholars who have been associated with David Patterson and the Oxford Centre The essays explore the nature and function of the Jewish Academies in the broadest sense the leading personalities associated with them and their social cultural and moral effect on the Jewish communities of their day

*Piyyut and Pesah* Steven M. Glazer, 2013-10-25 Piyyut and Pesah Poetry and Passover is an examination of Passover laws found in medieval Hebrew liturgical poetry While Hebrew liturgical poetry Piyyut serves a variety of functions as a linguistic art form the genre is not usually thought of as a vehicle for disseminating law Halakha This study examines five piyyutim each from a different locale which contain laws relating to Passover It compares and contrasts the laws found in each piece and notes that they differ from each other and in several cases from normative Halakha It suggests that such variants are traceable to certain economic sociological legal or other factors unique to a particular time and place and attempts to identify some of those factors *A History of the Jewish Community in Istanbul* Minna Rozen, 2010-10-15 This volume presents the transformation of the Greek speaking Jewish community of Byzantine Constantinople into an Ottoman ethnically diversified immigrant community As the Ottomans influenced its cultural and social values the community strived to preserve its boundaries with the surrounding society **Routledge Library Editions: Education and Religion** Various, 2021-07-14 The 10 volumes in this set originally published between 1965 and 1994 draw together research by leading academics in the area of religious education and provides a rigorous examination of related key issues The volumes examine the teaching of world faiths in schools religious education in both primary and secondary schools and the teaching of morality This set will be of particular interest to students of Education and Religious Studies
