Miller Teachers College Columbia University Maxine Greene never claimed to be a visionary thinker But forty years later her trepidations detailed throughout 1978's Landscapes of Learning now appear unnervingly prescient Witness and treasure Landscapes as evidence of her matchless abilities to inspire myriad educators and students worldwide I would suggest that there must always be a place in teacher education for foundations people whose fundamental concern is with opening new perspectives on the many faces of the human world Maxine Greene The essays in this volume demonstrate clearly that Maxine Greene is herself an example of the kind of foundations specialist she hopes to see someone who can stimulate inform and bring new insights to teachers students curriculum planners administrators policy makers indeed all those concerned with education in its broadest sense These essays a number of them based on lectures presented to various professional organizations reveals her dedication to learning and teaching as it reveals her belief in the potential of each individual person A philosopher whose orientation is largely existential and phenomenological she seeks to demystify aspects of today's technological society to question taken-for-granted notions of social justice and equality and to elucidate conflicts between youth and age the poor and the middle class people of color and Whites male and female As a humanist she calls for self-reflectiveness wide awakeness and personal transformation within the context of each person's own lived world each one's particular landscape of work experience and aspiration Recognizing the multiple realities that compose experience the many landscapes against which sense-making proceeds the essays are grouped in four sections intellectual and moral components of emancipatory education social issues and their implications for approaches to pedagogy artistic aesthetic considerations in the making of curriculum and the cultural significance of women's predicaments today All are richly illuminated by examples all are written with grace and passion all will help readers achieve greater self-understanding and critical consciousness An Accidental Journalist Cheryl Heckler, 2007 When an idealistic American named Edmund Stevens arrived in Moscow in 1934 his only goal was to do his part for the advancement of international Communism His job writing propaganda led to a reporting career and an eventual Pulitzer Prize in 1950 for his uncensored descriptions of Stalin's purges This book tells how Stevens became an accidental journalist and the dean of the Moscow press corps The longest serving American born correspondent working

from within the Soviet Union Stevens was passionate about influencing the way his stateside readers thought about Russia's citizens government and social policy Cheryl Heckler now traces a career that spanned half a century and four continents focusing on Stevens's professional work and life from 1934 to 1945 to tell how he set the standards for reporting on Soviet affairs for the Christian Science Monitor Stevens was a keen observer and thoughtful commentator and his analytical mind was just what the Monitor was looking for in a foreign correspondent He began his journalism career reporting on the Russo-Finnish War in 1939 and was the Monitor's first man in the field to cover fighting in World War II He reported on the Italian invasion of Greece participated in Churchill's Moscow meeting with Stalin as a staff translator and distinguished himself as a correspondent with the British army in North Africa Drawing on Stevens's memoirs to which she had exclusive access as well as his articles and correspondence and the unpublished memoirs of his wife Nina Heckler traces his growth as a frontline correspondent and interpreter of Russian culture She paints a picture of a man hardened by experience who witnessed the brutal crushing of the Iron Guard in 1941 Bucharest and the Kharkov hangings yet who was a failure on his own home front and who left his wife during a difficult pregnancy in order to return to the war zone Heckler places his memoirs and dispatches within the larger context of events to shed new light on both the public and the private Stevens portraying a reporter adapting to new roles and circumstances with a skill that journalists today could well emulate By exposing the many facets of Stevens's life and experience Heckler gives readers a clear understanding of how this accidental journalist was destined to distinguish himself as a war reporter analyst and cultural interpreter An Accidental Journalist is an important contribution to the history of war reporting and international journalism introducing readers to a man whose inside knowledge of Stalinist Russia was beyond compare as it provides new insight into the Soviet era
