Antidote For Avarice:

Representing Avarice in Late Renaissance France Jonathan Patterson, 2015 Why did people talk so much about avarice in late Renaissance France nearly a century before Moliere's famous comedy *L'Avare* As wars and economic crises ravaged France on the threshold of modernity avarice was said to be flourishing as never before Yet by the late sixteenth century a number of French writers would argue that in some contexts avaricious behaviour was not straightforwardly sinful or harmful Considerations of social rank gender object pursued time and circumstance led some to question age old beliefs Traditionally reviled groups rapacious usurers greedy lawyers miserly fathers covetous women might still exhibit unmistakable signs of avarice but perhaps not invariably in an age of shifting social economic and intellectual values Across a large diverse corpus of French texts Jonathan Patterson shows how a range of flexible genres nourished by humanism tended to offset traditional condemnation of avarice and avarices with innovative mitigating perspectives arising from subjective experience In such writings an avaricious disposition could be re described as something less vicious excusable or even expedient In this word history of avarice close readings of well known authors Marguerite de Navarre Ronsard Montaigne and of their lesser known contemporaries are connected to broader socio economic developments of the late French Renaissance c 1540 1615 The final chapter situates key themes in relation to Moliere's *L'Avare* As such **Representing Avarice in Late Renaissance France** newly illuminates debates about avarice within broader cultural preoccupations surrounding gender enrichment and status in early modern France

Conscience and Authority in the Medieval Church Alexander Murray, 2015-07-02 Alexander Murray has long had an intellectual interest in the history of religion struggling between his inbuilt anti clericism and his pronounced monastic leanings The five essays in **Conscience and Authority in the Medieval Church** take on this dialectic addressing the difficult relationship between private conscience and public authority in the twelfth and thirteenth centuries In any organization political military commercial or religious the relationship of conscience and authority is always potentially fraught and can create dilemmas both for those in authority and those without This volume records how our European predecessors approached and dealt with the same dilemmas as we face in the modern world

The Freedom to Love Emmerich Vogt, 2012-04 The modern world is full of temptations that can lead people not only into unhappy lives but also into the throes of addiction Navigating the world alone is not an easy task for any of us Why not let **The Freedom to Love** be a most valued companion in overcoming an addiction to a sinful life By living your life guided by true Christian morality and spiritual principles you can break free from temptations and have the courage to experience real love Why study the 12 Step recovery from a Christian context Addicts and codependents are unable to choose real love without being grounded in solid moral values Christianity offers a purposeful commitment to a way of life that heals human wounds and rectifies the effects of sin It promotes character growing in the measure that the person depends on truth and grace Devote yourself to the study and development of Christ's love and you will find the strength to break free from

addiction codependency and sinful behaviors that preclude love *SPIRITUAL ALCHEMY* Anthony of the Desert, 2010-05-25

Dante's Philosophical Life Paul Stern, 2018-05-02 When political theorists teach the history of political philosophy they typically skip from the ancient Greeks and Cicero to Augustine in the fifth century and Thomas Aquinas in the thirteenth and then on to the origins of modernity with Machiavelli and beyond Paul Stern aims to change this settled narrative and makes a powerful case for treating Dante Alighieri arguably the greatest poet of medieval Christendom as a political philosopher of the first rank In *Dante's Philosophical Life* Stern argues that Purgatorio's depiction of the ascent to Earthly Paradise that is the summit of Mount Purgatory was intended to give instruction on how to live the philosophic life understood in its classical form as love of wisdom As an object of love however wisdom must be sought by the human soul rather than possessed But before the search can be undertaken the soul needs to consider from where it begins its nature and its good In Stern's interpretation of Purgatorio Dante's intense concern for political life follows from this need for it is law that supplies the notions of good that shape the soul's understanding and it is law especially its limits that provides the most evident display of the soul's enduring hopes According to Stern Dante places inquiry regarding human nature and its good at the heart of philosophic investigation thereby rehabilitating the highest form of reasoned judgment or prudence Philosophy thus understood is neither a body of doctrines easily situated in a Christian framework nor a set of intellectual tools best used for predetermined theological ends but a way of life Stern's claim that Dante was arguing for prudence against dogmatism of every kind addresses a question of contemporary concern whether reason can guide a life *Les Belles Étrangères* Jane Koustas, 2008-03-10 While translation history in Canada is well documented the history of the translation of Canadian fiction outside the nation remains obscure *Les Belles étrangères* examines the translation of Canadian English language fiction in France This book considers the history of this practice the reasons for the move away from Quebec translators as well as the process and perils involved in this detour Within a theoretical framework and drawing on primary sources this study considers the historical theoretical and concrete aspects of this practice through the study of the translations of authors such as Robertson Davies Carol Shields Margaret Atwood Michael Ondaatje Ann Marie MacDonald and Alistair MacLeod The book also includes a comprehensive bibliography of English language novels poetry and plays published and translated in France over the past 240 years **The Cambridge Companion to Medieval Ethics** Thomas Williams, 2019 Offers historical and topical chapters on the whole range of medieval ethical thought in Christian Jewish and Islamic philosophy **The**

Christian Art of Dying Allen Verhey, 2011-11-28 A renowned ethicist who himself faced death during a recent life threatening illness Allen Verhey in *The Christian Art of Dying* sets out to recapture dying from the medical world Seeking to counter the medicalization of death that is so prevalent today Verhey revisits the fifteenth century *Ars Moriendi* an illustrated spiritual self help manual on the art of dying Finding much wisdom in that little book but rejecting its Stoic and Platonic worldview Verhey uncovers in the biblical accounts of Jesus' death a truly helpful paradigm for dying well and faithfully
