The Antiheroine's Voice Edward H. Friedman, 1987 **Antiheroes** Ilan Stavans, 1997 Presentation of the author's psychoanalytic beliefs and experiences in child psychoanalytic therapy **Antiheroines of Contemporary Media** Melanie Haas, N. A. Pierce, Gretchen Busl, 2020-12-02 This volume of essays provides a critical foray into the methods used to construct narratives which foreground antiheroines a trope which has become increasingly popular within literary media film and television Antiheroine characters engage constructions of motherhood womanhood femininity and selfhood as mediated by the structures that socially prescribe boundaries of gender sex and sexuality Within this collection scholars of literary cultural media and gender studies address the complications of representing agency autonomy and self determination within narrative texts complicated by age class race sexuality and a spectrum of privilege that reflects the complexities of scripting women on and off screen within and beyond the page This collection offers perspectives on the alternate narratives engendered through the motivations actions and agendas of the antiheroine while engaging with the discourses of how such narratives are employed both as potentially feminist interventions and critiques of access hierarchy and power *In Praise of Antiheroes* Victor Brombert, 2001-11 In an age of upheaval and challenged faith traditional heroes are hard to come by and harder still to love with their bloodstained hands and backs unbowed by the consequences of their actions Through penetrating readings of key works of modern European literature Victor Brombert shows how a new kind of hero the antihero has arisen to replace the toppled heroic model Though they fail by design to live up to conventional expectations of mythic heroes antiheroes are not necessarily failures They display different kinds of courage more in tune with our time and our needs deficiency translated into strength failure experienced as honesty dignity achieved through humiliation Brombert explores these paradoxes in the works of Balzac Gogol Dostoevsky Flaubert Svevo Hemingway Kafka Camus and Levi Coming from diverse cultural and linguistic traditions these writers all use the figure of the antihero to question handed down assumptions to reexamine moral categories and to raise issues of survival and renewal embodying the spirit of an uneasy age

The Antiheroes: Treatise of a Lost Soul Abe Sulfaro, 2022-08-25 A thriller from start to end We hurriedly walk across an empty weed filled lot to approach the house from the back There's very little light Most street lights don't work here It's perfect I can only imagine how we would look to an incidental observer tonight this gang of painted up crazy looking freaks and we are truly all of that The living dead have come to call White painted faces like death masks all dressed in black as we stride across the overgrown lot in a neighborhood of abandoned and boarded up ramshackle houses like a scene from a war torn country or the movie set of some vile cheap B horror flick We are a nightmare from Halloween come to life Anyone encountering this spectacle would turn and run the other way **Toxic Voices** Eric Laursen, 2013-01-30 Introduction Scrounging in the Soviet garbage pit Writing a precarious balance He does not love us when we are dirty Things that should not be found Lost in translation Conclusion Writers forward **Disruptive Women of Literature** Eleanore

Gardner,2024-07-08 *Disruptive Women of Literature* Rooting for the Antiheroine critically examines the representation of the literary antiheroine in contemporary Gothic and crime thriller novels and traces her emergence from the deviant women of Greek mythology and Shakespeare to the twenty first century It explores how the antiheroine shifts dependent on genre time period and format demonstrating that she is capable of both challenging and reaffirming problematic ideologies surrounding women power violence sexuality and motherhood Eleanor Gardner argues that the antiheroine is almost always defined by her experience of a patriarchal trauma and must therefore navigate her identity differently and more complexly than her antihero counterpart The author examines a broad range of texts to understand the antiheroine's fluidity her liminal and abject existence and what these suggest about cultural anxieties surrounding transgressive women **A Century of Italian**
