Everyday Ethics for Practicing Planners Carol Barrett, 2018-01-12 This book is on the suggested reading list for planners preparing to take the AICP exam. As a veteran planner, the author points out the most troublesome conflicts for planners aren't between good and bad; they're between competing goods, neither of which can be fully achieved. The 54 real-world scenarios described here typify the tough moral dilemmas that confront today's practitioners. The author offers planners a way to recognize the ethical conflicts that arise in everyday practice, analyze them using practical moral reasoning, apply relevant sections of the AICP Code of Ethics and the APA AICP Ethical Principles in Planning, both of which are included in full, and decide on the best course of action. The author tells a series of stories, each one a sticky situation that could confront a typical planner. Barrett points out the ethical issues, identifies possible alternatives, and cites relevant sections of the AICP Code. Finally, the author discusses the pros and cons of each alternative. Five particularly complex scenarios are especially intended for group discussion. Individuals studying for the AICP exam will find this book indispensable. But it also should be required reading for every planner who struggles to act ethically and for planning students who want to understand how professionals define and serve the public interest. Planning agencies, private consulting firms, and planning commissions can use its realistic scenarios to jump-start group discussions and workshops on ethical planning.

Strategic Marketing Management Richard M.S. Wilson, Colin Gilligan, 2012-08-06 This third edition of *Strategic Marketing Management* confirms it as the classic textbook on the subject. Its step-by-step approach provides comprehensive coverage of the five key strategic stages: Where are we now? Strategic and marketing analysis. Where do we want to be? Strategic direction and strategy formulation. How might we get there? Strategic choice. Which way is best? Strategic evaluation. How can we ensure arrival? Strategic implementation and control. This new revised and updated third edition has completely new chapters on The Nature and Role of Competitive Advantage and The Strategic Management of the Expanded Marketing Mix, and extensive new material covering The changing role of marketing, Approaches to analysing marketing capability, E-marketing, Branding, Customer relationship management, Relationship management myopia, The decline of loyalty. The book retains the key features that make it essential reading for all those studying the management of marketing: a strong emphasis on implementation, up-to-date mini-cases and questions and summaries in each chapter to reinforce key points. Widely known as the most authoritative, successful and influential text in the sector, the new edition remains an irreplaceable resource for undergraduate and graduate students of business and marketing and students of the CIM Diploma.
