[Forging Connections](#) Dr. Anuj Kumar Sinha, 2023-07-01 Why do some companies last and

continue to create value for their stakeholders while others perish The strength and longevity of a building rests on the integrity and alignment of each of its elements steel concrete etc Those elements of an organisation are its people Human capital is a very heterogeneous resource each individual is a very distinct entity All these entities when they come to work they bring along their unique qualities and aspirations the other side of the equation is the expectations of stakeholders or needs of the business The organisation s and its principals ability to skilfully navigate these diverging interests sets the foundation for growth and value creation The root cause of disconnect among the workforce is the I am right and you think you are wrong framework that influences our strategic and tactical engagement But this framework ignores and undermines the real truth that leads to an unhealthy work atmosphere which is detrimental for organisational growth and sustainability

This book highlights how an atmosphere of confrontations and infighting depresses output and productivity and in extreme cases causes companies to perish The challenges of a modern day HR manager have been compounded manifold in recent years This is influenced by the emergence of digitization outsourcing and work from home setup in the aftermath of the pandemic

Home Networking Khaldoun Al Agha,Xavier Carcelle,Guy Pujolle,2008-03-07 The Home Networking Conference 2007 provided an international technical forum for experts from industry and academia globally to exchange ideas and present results of ongoing research in home networking The IFIP series publishes state of the art results in the sciences and technologies of information and communication The scope of the series includes foundations of computer science software theory and practice education computer applications in technology communication systems systems modeling and optimization information systems computers and society computer systems technology security and protection in information processing systems artificial intelligence and human computer interaction Proceedings and post proceedings of refereed international conferences in computer science and interdisciplinary fields are featured These results often precede journal publication and represent the most current research
