

The Elements

Water

Water is a feminine energy and highly connected with the aspects of the Goddess. Used for healing, cleansing, and purification, Water is related to the West, and associated with passion and emotion. In many spiritual paths, including Catholicism, consecrated Water can be found – holy water is just regular water with salt added to it, and usually a blessing or invocation is said above it. In Wiccan covens, such water is used to consecrate the circle and all the tools within it. As you may expect, water is associated with the color blue, and the Tarot suit of Cup cards.

Each of the four directions (north, east, south, west) have corresponding elements, which represent different properties. Elements are invoked when casting circles in ritual and can be used in spell work.

Direction - West

Colour - Blue

Time of Day - Sunset

Season - Autumn

Animals - Dolphins, Fish & other sea/ing creatures

Nature - Oceans, Lakes, Rivers & Rain

Sacred Tool - Chalice

Properties - Emotions, Rebirth & intuition

1867 only seven of which were reproduced in the 1959 edition of *Journals and Papers*. Topics range from Platonic philosophy to theories of the imagination from ancient history to then contemporary politics and voting rights. Also included are notes from a commonplace book, a remarkable dialogue about aesthetics featuring a fictionalized John Ruskin figure, and the lecture notes Hopkins prepared in the winter of 1868 while teaching at John Henry Newman's Oratory School in Birmingham. The writings in which he explores for the first time the theories of *inscape* and *instress* so central to his poetic practice. The edition is fully annotated and provides a detailed introduction that situates historically Hopkins's academic and creative efforts. The twelve notebooks represent Hopkins's intellectual and aesthetic development while studying with some of the greatest scholars of the era: Benjamin Jowett, Walter Pater, and T. H. Green, as well as the ethical and spiritual anxieties he wrestled with while deciding to convert to Catholicism. John Henry Newman received him into the Church in 1866. Hopkins never wrote to please his tutors or the university professors; he wrote vividly and searchingly in response to the challenges they presented. Whether evaluating Aristotle's *Nicomachean Ethics*, the role of neutral England in the American civil war, or the comparative merits of classical sculpture, his first instinct was always to frame the difficult questions involved and work towards a counter argument. *Salt, Research and Industry*, 1965.
