Runner's Life is my first book and was inspired by being able to attend many of Steven's race events with my husband Jay and recording our experiences in my journal. This book includes several of Steven's own blog posts posted on the Art of Trail wordpress.com. These posts explain his motivation for trail running and his experiences at many of his races. Also, it includes his discipline where he used a special diet to avoid stomach cramps and training habits that could be helpful to anyone involved in ultrarunning or ultra sports. According to Wikipedia, an ultramarathon, also called ultra distance or ultra running, is any footrace longer than the traditional marathon length, which is 26.2 miles. In the last two years of Steven's training for the Ultra trail du Mont Blanc in Chamonix, France, he bought and began renovating a cabin in Oregon. This book shows with multi-tasking discipline and many prayers that all things are possible. I hope you enjoy this book as much as I have enjoyed reliving our experiences.

The Last Mile Dilip Soman, 2015-07-27. Most organizations spend much of their effort on the start of the value creation process, namely creating a strategy, developing new products or services, and analyzing the market. They pay a lot less attention to the end, the crucial last mile, where consumers come to their website, store, or sales representatives and make a choice. In *The Last Mile*, Dilip Soman shows how to use insights from behavioral science in order to close that gap. Beginning with an introduction to the last mile problem and the concept of choice architecture, the book takes a deep dive into the psychology of choice, money, and time. It explains how to construct behavioral experiments and understand the data on preferences that they provide. Finally, it provides a range of practical tools with which to overcome common last mile difficulties. *The Last Mile* helps lay readers not only to understand behavioral science but to apply its lessons to their own organizations' last mile problems, whether they work in business, government, or the nonprofit sector. Appealing to anyone who was fascinated by Dan Ariely's *Predictably Irrational*, Richard Thaler and Cass Sunstein's *Nudge*, or Daniel Kahneman's *Thinking Fast and Slow*, but was not sure how those insights could be practically applied, *The Last Mile* is full of solid, concrete advice on how to put the lessons of behavioral science to work.
