far from being superficial adornments of behaviour are thoroughly interwoven with our personalities and the structures of

our societies The concept of informalization provides both an invaluable addition to Norbert Elias s theory of civilizing

processes and a most useful tool for understanding how changes in manners are related to shifts in the balances of power

between social classes sexes and generations Johan Goudsblom University of Amsterdam Cas Wouters stakes out a powerful

theory about changes in human relationships in the Western world over the past twelve decades essential reading for anyone

interested in the contemporary human condition Theory and Society It is written in clear unequivocal language abounds with

detail and replaces many normative statements about the alienating state of contemporary capitalist mass consumption

oriented bureaucracy A nuanced subtle and theoretically informed analysis of the sometimes quite chaotic civilising process

of the last century Figurations This original book explains the sweeping changes to twentieth century regimes of manners

and self Broad in scope and deep in analytic reach it provides a wealth of empirical evidence to demonstrate how changes in

the code of manners and emotions in four countries Germany Netherlands England and the US have undergone increasing

informalization From the growing taboo toward the displays of superiority and inferiority and diminishing social and psychological distance between people it reveals an emancipation of emotions and the new representation of emotion at the centre of personality This thought provoking book traces The increasing permissiveness in public and private manners such as introductions the use of personal pronouns social kissing dancing and dating The ascent and integration of a wide variety of groups including the working classes women youth and immigrants and the sweeping changes this has imposed on relations of social inferiority and superiority Shifts in self regulation that require manners to seem natural at ease and authentic Rising external social constraints towards being reflexive showing presence of mind considerateness role taking and the ability to tolerate and control conflicts Growing interdependence and social integration declining power differences and the diminishing social and psychic distance between people Continuing the analysis of Sex and Manners SAGE 2004 this book is a dazzling work of historical sociology
