Becoming Bestsellers: John Grisham and Danielle Steel (Sample from Chapter 2 of THE BESTSELLER CODE)

Jodie Archer,Matthew L. Jockers,2016-08-16 This sneak peek teaser featuring literary giants John Grisham and Danielle Steele from Chapter 2 of The Bestseller Code a groundbreaking book about what a computer algorithm can teach us about blockbuster books stories and reading reveals the importance of topic and theme in bestselling fiction according to percentages assigned by what the authors refer to as the bestseller ometor Although 55 000 novels are published every year only about 200 hit the lists a commercial success rate of less than half a percent When the computer was asked to blindly select the most likely bestsellers out of 5 000 books published over the past thirty years based only on theme it discovered two possible candidates The Accident by Danielle Steel and The Associate by John Grisham The computer recognized quantifiable patterns in their seemingly opposite but undeniably successful writing careers with legal thrillers and romance In Chapter 2 Archer and Jockers analyze this data and divulge the most and least likely to best sell topics and themes in fiction with a human discussion of the why behind these results The Bestseller Code is a big idea book about the relationship between creativity and technology At heart it is a celebration of books for readers and writers a compelling investigation into how successful writing works *Best-Selling Chapters* Raymond Harris,1994 The Making of a Medieval Bestseller Judah D. Galinsky,2025-05-21 In 1277 Rabbi Isaac of Corbeil produced a concise work of accessible religious law This handbook Amudei Golah Pillars of Exile began as a list of religious commandments mitzvot meant to be recited weekly It was divided into seven pillars drawn primarily from the limbs of the human body and its activities heart hand mouth monetary transactions etc and dealt exclusively with laws relevant to Jews living in the Diaspora in medieval times This handbook of religious law written in Hebrew became the most widespread book of its kind during the late Middle Ages within the various French and German speaking Jewish communities known as Ashkenaz Nearly two hundred medieval copies of the work are found in public libraries and private collections today an astounding number for a Hebrew work at the time In The Making of a Medieval Bestseller Judah Galinsky approaches his study in three parts The first surveys the ideological and cultural reasons that Rabbi Isaac composed the work and describes how the book evolved over time The second part traces the book s impressive circulation and analyzes the various reasons behind the book s success suggesting that readers who were outside the scholarly class may have been key to the work s popularity In the third part Galinsky addresses the readers themselves who ordered copies of the work from a scribe Galinsky discerns the cultural profile of the patrons who commissioned the codex by paying attention to the books they requested to have copied alongside it or its fellow travelers This study is a history of a medieval bestseller It describes how it came into being grew and evolved and also charts its circulation explains
