

Betrayed Christianity

Bradley H. McLean

Betrayed Christianity:

Kierkegaard's Writings, XXII, Volume 22 Søren Kierkegaard, 2009-07-06 As a spiritual autobiography Kierkegaard's *The Point of View for My Work as an Author* stands among such great works as Augustine's *Confessions* and Newman's *Apologia pro Vita Sua*. Yet *Point of View* is neither a confession nor a defense; it is an author's story of a lifetime of writing his understanding of the maze of greatly varied works that make up his oeuvre. Upon the imminent publication of the second edition of *Either/Or*, Kierkegaard again intended to cease writing. Now was the time for a direct report to history on the authorship as a whole. In addition to *Point of View*, which was published posthumously, the present volume also contains *On My Work as an Author*, a contemporary substitute and the companion piece *Armed Neutrality*. **The Christian Betrayal of the United States** Carl Wells, 2010-10-22 The *Christian Betrayal of the United States* theorizes that 100% of the problems of the United States have their root in the conservative Bible-believing Christian church of this country. Countless books by liberal Christians or by non-Christians have accused the Christian right of being a dangerous segment of our country. Following the principles of the Christian right will lead to tyranny, so the theory goes. The *Christian Betrayal of the United States* takes a very different tack. According to the author, the Bible-believing Christians have betrayed their country already by their actions in many distinct arenas of life. Those who have cursed the Bible-believing Christians as being too Christian have got it exactly backward. They may curse Christians again when they understand that Christians were not Christian enough. The author, far from being a liberal Christian or a humanist, is a self-professed conservative Bible-believing Christian. He strives to show how his own people have betrayed their nation. It is a dark story. On the brighter side, the author also tries to grope toward a solution of the problems he and his people have caused. **Christianity and Human Rights** Frederick M. Shepherd, 2009-07-15 In *Christianity and Human Rights: Christians and the Struggle for Global Justice*, Frederick M. Shepherd has collected essays by scholars and activists who in a wide variety of ways confront the issue of Christianity's role in the burgeoning movement for human rights. The volume's contributors provide diverse perspectives on the theology behind the idea of human rights, the debate over its meaning, and the evolution of the struggle for human rights. A wide variety of disciplinary perspectives are represented, from economics, political science, and law to history, philosophy, and theology. The essays also represent a broad political spectrum, including specific accounts from activists participating in the struggle for human rights. Separate chapters focus on cases from Europe, Africa, Latin America, and Asia. *Christianity and Human Rights* begins and ends with attempts to synthesize current theory and practice, acknowledging both Christianity's great success and its failures in defending basic human rights around the globe. **Training in Christianity** Søren Kierkegaard, 2015-12-08 Kierkegaard, in his late and confirmed Christian period, discusses the sharp separation of Christianity from Christendom as seen in the official church. Originally published in 1944, *The Princeton Legacy Library* uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press.

These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Practice in Christianity Søren Kierkegaard, 2013-04-21 Of the many works he wrote during 1848 his richest and most fruitful year Kierkegaard specified *Practice in Christianity* as the most perfect and truest thing In his reflections on such topics as Christ's invitation to the burdened the imitatio Christi the possibility of offense and the exalted Christ he takes as his theme the requirement of Christian ideality in the context of divine grace Addressing clergy and laity alike Kierkegaard asserts the need for institutional and personal admission of the accommodation of Christianity to the culture and to the individual misuse of grace As a corrective defense the book is an attempt to find ideally a basis for the established order which would involve the order's ability to acknowledge the Christian requirement confess its own distance from it and resort to grace for support in its continued existence At the same time the book can be read as the beginning of Kierkegaard's attack on Christendom Because of the high ideality of the contents and in order to prevent the misunderstanding that he himself represented that ideality Kierkegaard writes under a new pseudonym Anti Climacus

Deleuze, Guattari and the Machine in Early Christianity Bradley H. McLean, 2022-07-28 Expanding the impact of Gilles Deleuze and Félix Guattari's philosophy to the disciplines of Christian Origins and Christian theology this original study makes the case for understanding early Christianity through such Deleuzioguattarian concepts as the rhizome the machine the body without organs and the multiplicity using the theoretical tool of schizoanalysis to do so The reconstruction of the historical emergence of early Christianity Bradley H McLean argues has been constrained by traditional assumptions about its historical and transcendental origins These assumptions are ill suited to theorizing the genesis change and transformation of early Christianity in the first three centuries of the Common Era To capture the dynamism of early Christianity McLean applies Guattari's concept of the machine to the analysis of early Christianity Arguing that machines are both an unnoticed dimension of early Christianity and a major analytical tool for the discipline McLean highlights the potential of the philosophy of Deleuze and Guattari to challenge and reconfigure not just our knowledge of early Christianity but all aspects of Hellenistic Judaism and the Greco Roman world as well as our understanding of Jesus of Nazareth and the Jesus movement By subverting the concept of a single transcendental or historical origin of Christianity this book facilitates new forms of dialogue and cooperation between Christians and co religionists

Manifesto of the Critical Theory of Society and Religion (3 Vols.) Rudolf Siebert, 2010-08-16 The Manifesto develops further the Critical Theory of Religion intrinsic to the Critical Theory of Society of the Frankfurt School into a new paradigm of the Psychology Sociology Philosophy and Theology of Religion Its central theme is the theodicy problem in the context of late capitalist society and its globalization

Migration and the Making of Global Christianity Jehu J. Hanciles, 2021-03-16 A magisterial sweep through 1500 years of Christian history with a groundbreaking focus on the

missionary role of migrants in its spread Human migration has long been identified as a driving force of historical change Building on this understanding Jehu Hanciles surveys the history of Christianity s global expansion from its origins through 1500 CE to show how migration more than official missionary activity or imperial designs played a vital role in making Christianity the world s largest religion Church history has tended to place a premium on political power and institutional forms thus portraying Christianity as a religion disseminated through official representatives of church and state But as Hanciles illustrates this top down perspective overlooks the multifarious array of social movements cultural processes ordinary experiences and non elite activities and decisions that contribute immensely to religious encounter and exchange Hanciles s socio historical approach to understanding the growth of Christianity as a world religion disrupts the narrative of Western preeminence while honoring and making sense of the diversity of religious expression that has characterized the world Christian movement for two millennia In turning the focus of the story away from powerful empires and heroic missionaries *Migration and the Making of Global Christianity* instead tells the more truthful story of how every Christian migrant is a vessel for the spread of the Christian faith in our deeply interconnected world

How Christian Is Our Present Day Theology? Franz Overbeck, 2005-06-21 This book is a translation of Overbeck s famous text *Ueber die Christlichkeit unserer heutigen Theologie* 1873 second edition 1903 together with an introduction and notes The complete original work is translated including the Introduction and Epilogue which incorporates some of Overbeck s late reflections on his friendship with Nietzsche and on theology The unique feature of this book is that it is the first translation into English of any substantial publication by Overbeck This is also the only work of a programmatic nature that Overbeck ever published on the vexed issue of theology s relationship to Christianity It raises questions about Christianity in the modern world and the role of theology within religion that still need to be answered As David Tracy has written Overbeck s friend Nietzsche used a hammer against theology Overbeck himself used a scalpel And Overbeck is finally the deeper challenge for theology This translation will make Overbeck s classic work available to a wider public and thus contribute to a better appreciation of his profound and still unanswered questions for contemporary Christianity

Battleground: Religion Daniel L. Smith-Christopher, 2008-12-30 Is there a controversial issue in the contemporary world that does not involve religion Whether it s a debate over the beginning of life or on sexuality and family life or on the stewardship of humans over the environment almost all of the most contentious matters that impact today s society involve people s deeply held religious beliefs *Battleground Religion* helps clarify these complex topics by examining how various religious beliefs and practices impact current political social and cultural debates Each of the approximately 100 entries examines a hot button issue from war and peace to the culture wars and discusses in a balanced and objective way the points of view on these topics from all parts of the religious spectrum Students will come away from *Battleground Religion* with a better understanding of the issues that they will be encountering for years to come Each entry includes a bibliography or resources for further information
