Between Dayak And Dutch The Economic History Of Southeast Kalimantan:

Between Dayak and Dutch J. Thomas Lindblad,1988 **The Politics and Economics of Indonesia's Natural Resources** Budy P. Resosudarmo,2005 The challenges in using and managing natural resources in Indonesia are immense They include ensuring that resource utilisation benefits most Indonesians Examines this and other related issues from a political socio economic and environmental standpoint Rethinking Power Relations in Indonesia Michaela Haug,Martin Rössler,Anna-Teresa Grumblies,2016-07-15 Since colonial rule the island of Java served as Indonesia s imagined centre and prime example of development while the Outer Islands were constructed as the state s marginalised periphery Recent processes of democratisation and regional autonomy however have significantly changed the power relations that once produced the marginality of the Outer Islands This book explores processes of political economic and cultural transformations in Indonesia emphasizing their implications for centre periphery relations from the perspective of the archipelago s margins Structured along three central themes the book first provides theoretical contributions to the understanding of marginality in Indonesia The second part focuses on political transformation processes and their implications for the Outer Islands The third section investigates the dynamics caused by economic changes on Indonesia s periphery Chapters writtten by experts in the field offer examples from various regions which demonstrate how power relations between centre and periphery are getting challenged contested and reshaped The book fills a gap in the literature by analysing the implications of the recent transformation processes for the construction of marginality on Indonesia s Outer Islands *Histories of the Borneo Environment* Reed L. Wadley,2022-07-04 In light of the tremendous changes that have come to the island of Borneo in recent decades this volume takes a detailed historical look at the Borneo environment from native colonial and national perspectives It examines change and continuity in the economic political and social dimensions of human environment interactions Reflecting the increasingly multidisciplinary nature of environmental history the book brings together an international group of historians anthropologists geographers and social foresters all looking through a historical lens at the environment in the Malaysian states of Sabah and Sarawak and the Indonesian province of Kalimantan and Brunei Drawing on extensive archival research and fieldwork these ten original contributions encompass eleven centuries of history on Borneo examining interrelated topics that include long distance trade conservation land tenure resource access property rights perceptions of the environment migration and development policy and practice The chapters in this volume are extensively revised versions of selected papers presented at an international seminar on Environmental change in native and colonial histories of Borneo Lessons from the past prospects for the future held in Leiden under the auspices of the International Institute for Asian Studies *Continuity under Change in Dayak Societies* Cathrin Arenz,Michaela Haug,Stefan Seitz,Oliver Venz,2017-04-27 This volume provides a balanced picture of change and continuity within Dayak societies from an anthropological perspective by exploring diverse ways in which certain kinds of knowledge

performances and practices continue within the context of rapid and profound change The contributions cover a broad variety of topics including political reform decentralisation environmental change and related changes in natural resource management religion and ritual practice the re formation of ethnic identities as well as conflict transformation in Indonesian Borneo *South East Asia, Colonial History: Empire-building in the nineteenth century* Paul H. Kratoska, 2001 The six volumes that make up this unique set provide an extensive overview of colonialism in South East Asia In the majority of cases authors chosen were specialists writing about their individual areas of expertise and had first hand experience in the region Outline of contents I Imperialism before 1800 Edited by Peter Borschberg II Empire Building in the Nineteenth Century III High Imperialism IV Imperial Decline Nationalism and the Japanese Challenge V Peaceful Transitions to Independence VI Independence through Violent Struggle **A Demographic History of the Indonesian Archipelago** H.

Gooszen, 2021-12-06 The author offers a reconstruction of regional variations in the growth of the indigenous population of Indonesia from 1880 till the Japanese invasion in 1942 The demographic components of population growth migration fertility and mortality are not only presented as demographic statistics but also interpreted as the aggregate effects of major events in the lives of indigenous people Hence migration is described in relation to employment opportunities the social structure and tradition fertility is examined in the light of aspects of family formation including marriage customs and birth control practices and mortality is linked to epidemics and Western health care *Roots of Violence in Indonesia* Freek

Colombijn, J.Th. Lindblad, 2021-11-15 Jakarta Sambas Poso the Moluccas West Papua These simple geographical names have recently obtained strong associations with mass killing just as Aceh and East Timor where large scale violence has flared up again Lethal incidents between adjacent villages or between a petty criminal and the crowd take place throughout Indonesia Indonesia is a violent country Many Indonesia watchers both scholars and journalists explain the violence in terms of the loss of the monopoly on the means of violence by the state since the beginning of the Reformasi in 1998 Others point at the omnipresent remnants of the New Order state 1966 1998 former President Suharto's clan or the army in particular as the evil genius behind the present bloodshed The authors in this volume try to explain violence in Indonesia by looking at it in historical perspective **Constituting the Minangkabau** Joel Kahn, 2020-05-26 This account of culture and society in the

villages of West Sumatra Indonesia during the period of Dutch colonialism is based on materials collected from the colonial archives local Indonesian newspapers and recent fieldwork in Malaysia and Indonesia The author argues that the impact of colonial land grabbing and political control led to the formation of a peasant economy in the period At the same time the author tackles issues in the recent anthropological debates about ethnography and culture to argue that this period also witnessed the construction of what we now call Minangkabau Culture a process that involved western ethnographers colonial officials and Minangkabau intellectuals in an often conflicted process of modern cultural transformation **The Emergence of a National Economy** V.J.H. Houben, J.Th. Lindblad, 2021-09-06 History matters At the beginning of a new century and

amidst the turmoil of a new democracy a historical perspective on modern Indonesia is needed more than ever This innovative economic history connects back to the colonial era and helps to explain why the transition from colonialism to Independence and from the New Order to democracy has been so difficult and sometimes traumatic The Emergence of a National Economy identifies three grand themes in this transformation globalisation state formation and economic integration Globalisation affected the Indonesian archipelago even before the arrival of the Dutch the New Order experience was only the most recent wave Modern state formation began in Java under Governor General Daendels 1808 11 and culminated in the centralised military bureaucratic state of Soeharto s New Order 1966 98 A national economy emerged gradually from the 1930s as the Outer Islands were reoriented towards an industrialising Java These three themes link chronological chapters from the pre 1800 period through the modern colonial era to the breakdown of the colonial system after 1930 the birth of modern Indonesia the remarkable economic transformation under the New Order and the meltdown during the Asian crisis of 1997 98 This overarching story gives a unity and rhythm to Indonesia s modern history while helping to explain why the future is likely to be different The four authors senior scholars from Australia Howard Dick Germany Vincent Houben the Netherlands Thomas Lindblad and Indonesia Thee Kian Wie draw on a very wide range of sources to combine the insights of history economic history and economics
