

Biological and Toxin Weapons Convention

#UPSC #CES

Why in news?

India has emphasized on following the Biological and Toxin Weapons Convention (BTWC) at the UNSC meeting on Ukraine.

About

The Biological Weapons Convention (BWC) was negotiated in Geneva, Switzerland, at the Conference of the Committee on Disarmament. It was signed in 1972 and came into force in 1975.

Purpose

The convention effectively forbids biological and toxin weapons development, manufacturing, acquisition, transfer, stockpiling, and use.

Membership

183 States Parties and four Signatory States. India is also a party to the convention.

Significance

It is the first multilateral disarmament treaty banning an entire category of weapons of mass destruction (WMD).

Drawbacks of the Convention

The BTWC has no implementation body, allowing for blatant violations as in the past. Every five years, a review conference is held to assess the convention's implementation and propose confidence-building measures.
