5 G Challenge Fall Quarter Administrators Guidebook:

Making Your Children's Ministry the Best Hour of Every Kid's Week David Staal, 2009-05-26 Promiseland is Willow Creek's highly successful children's ministry. Using examples from Promiseland and churches of all sizes around the country, this book provides step-by-step guidance and creative application exercises to help churches develop a thriving children's ministry, one that strives to be the best hour of every kid's week. Included are Scripture-based principles and practical resources for church staff members and volunteers who agree with the critical role children's ministry plays in a local church. Making Your Children's Ministry the Best Hour of Every Kid's Week, based on twenty-eight years of experience at Willow Creek, explains four ministry foundations: Mission, Vision, Values, and Strategy. Content includes detailed answers to questions facing every children's ministry: What does Jesus expect from children's ministry? How can we evangelize lost kids and disciple saved kids at the same time? and should we? How do we engage kids so they don't become bored? How do we get better at recruiting and leading volunteers? How can our ministry be a safe place for children? Six specific ministry values that address the needs of today's children. Practical first steps for ministries that want to get serious about change. Clear indicators of success in children's ministry.

Second International Handbook of Educational Leadership and Administration Kenneth A. Leithwood, P. Hallinger, 2012-12-06 The first International Handbook of Educational Leadership and Administration, Leithwood et al., was published in 1996 and quickly became something of a best seller for reference works within education. Such success we suggest was at least partly due to the unprecedented global waves of concern for improving schools launched in the mid-1980s combined with a widespread belief in leadership as the single most powerful contribution to such improvement. The roots of this belief can be found in evidence produced by the early effective schools research, although there is a romance with leadership as an explanation for success in many non-school enterprises as well. During the two-year period during which this current handbook was being written, activity in the realms of school leadership, school improvement, and leadership development gained further momentum. The English government created its new National College of School Leadership, and several Asian nations announced new initiatives in leadership selection, preparation, and development.
