A New Hope For The Dead:

From the Dead to You Carol Lee, 2019-08-20 This book is a rare glimpse into the world of the dead of their stories untold and the life lessons that they wish to teach Coming straight from the morgue these are real people with real lives and stories that we all can relate to **Life in the Spirit** Peace B. David, 2003 **Death Troopers: Star Wars Legends** Joe Schreiber, 2011-06-28 The chilling tale of the undead in a galaxy far far away This is the Star Wars of every horror fan s dreams gory funny and brimming with a blood spattered cast of swashbucklers and space zombies Seth Grahame Smith author of *Pride and Prejudice and Zombies* When the Imperial prison barge Purge temporary home to five hundred of the galaxy s most ruthless killers Rebels scoundrels and thieves breaks down in a distant part of space its only hope appears to lie with a Star Destroyer found drifting and seemingly abandoned But when a boarding party from the Purge is sent to scavenge for parts only half of them come back bringing with them a horrific disease so lethal that within hours nearly all aboard the Purge die in ways too hideous to imagine And death is only the beginning The Purge s half dozen survivors will do whatever it takes to stay alive But nothing can prepare them for what lies waiting aboard the Star Destroyer For the dead are rising soulless unstoppable and unspeakably hungry **Ghosts of Archive** Verne Harris, 2020-12-21 *Ghosts of Archive* draws on the discourses of deconstruction intersectionality and archetypal psychology to mount an argument that archive is fundamentally and structurally spectral and that the work of archive is justice Drawing on more than 20 years of the author s research on deconstruction and archive the book posits archive as an essential resource for social justice activism and as a source or location of soul for individuals and communities Through explorations of what Jacques Derrida termed hauntology Harris invites a listening to the call for justice in conceptual spaces that are non disciplinary He argues that archive is both constructed in relation to and beset by ghosts ghosts of the living of the dead and of those not yet born and that attention should be paid to them Establishing a unique nexus between a deconstructive intersectionality and traditions of memory for justice in struggles against oppression from South Africa and elsewhere the book makes a case for a deconstructive praxis in today s archive Offering new ideas about spectrality banditry and archival activism *Ghosts of Archive* should appeal to those working in the disciplines of archival science information studies and psychology It should also be essential reading for those with an interest in social justice issues transitional justice history philosophy memory studies and postcolonial studies
