Introducing a Hermeneutics of Suspicion Jo Henderson-Merrygold, 2024-06-13

A hermeneutics of suspicion challenges cisnormative presuppositions that shape and at times occlude the variations in gender and sex exhibited by key characters in the ancestral narrative of Genesis 12-50. It charts the progression from Paul Ricoeur's hermeneutics of suspicion through liberation feminist and queer approaches. Focusing on Deryn Guest's queer and trans hermeneutics, Henderson-Merrygold then offers a new strategy for reading against fixed binary gender assumptions where a character's sex always matches that assigned at birth. The initial case study addresses Sarah, who is the proto matriarch of the ancestral narratives in Genesis. Masculinities contrast with femininities, and Sarah's own agency makes the picture of a consistent gender hard to identify. By closely reading the text, different facets of Sarah's story emerge to emphasise how much the narrative directs the reader towards a cisnormative reading. However, Henderson-Merrygold shows it is not only the images of Sarah as feminine woman and mother that remain visible. The subject of the second case study, Esau, is regularly judged to be a hypermasculine character due to his bodily appearance but repeatedly fails to fulfil the expectations related to that appearance. Though often condemned as a poor example of hyper masculinity, a suspicious reading identifies a richer and more nuanced figure. Attending to Esau's actions, his rejection of the gendered expectations appears intentional, allowing him to settle more comfortably into his own identity. This project advocates for and demonstrates the value of creative interpretations of biblical texts that challenge both mainstream and feminist gender assumptions.

Freedom's Progress? Gerard Casey, 2021-10-04

In *Freedom's Progress*, Gerard Casey argues that the progress of freedom has largely consisted in an intermittent and imperfect transition from tribalism to individualism, from the primacy of the collective to the fragile centrality of the individual person and of freedom. Such a transition, he argues, is neither automatic nor complete, nor are relapses to tribalism impossible. The reason for the fragility of freedom is simple: the importance of individual freedom is

simply not obvious to everyone Most people want security in this world not liberty Libertarians writes Max Eastman used to tell us that the love of freedom is the strongest of political motives but recent events have taught us the extravagance of this opinion The herd instinct and the yearning for paternal authority are often as strong Indeed the tendency of men to gang up under a leader and submit to his will is of all political traits the best attested by history The charm of the collective exercises a perennial magnetic attraction for the human spirit In the 20th century Fascism Bolshevism and National Socialism were Casey argues each of them a return to tribalism in one form or another and many aspects of our current Western welfare states continue to embody tribalist impulses Thinkers you would expect to feature in a history of political thought feature in this book Plato Aristotle Machiavelli Locke Mill and Marx but you will also find thinkers treated in Freedom s Progress who don t usually show up in standard accounts Johannes Althusius Immanuel Kant William Godwin Max Stirner Joseph Proudhon Mikhail Bakunin Pyotr Kropotkin Josiah Warren Benjamin Tucker and Auberon Herbert Freedom s Progress also contains discussions of the broader social and cultural contexts in which politics takes its place with chapters on slavery Christianity the universities cities Feudalism law kingship the Reformation the English Revolution and what Casey calls Twentieth Century Tribalisms Bolshevism Fascism and National Socialism and an extensive chapter on human prehistory

on the Bible Religion And Morality shrink wrapped in a boxed set *The Injustice of Noah's Curse* Justin Michael Reed, Associate Professor of Old Testament and the Hebrew Bible Justin Michael Reed, 2025-12-02 This book provides a new literary interpretation of Noah's curse as unjust. Most interpreters acknowledge that in the context of Genesis 9:18-29 Noah's curse of Canaan seems to be an overreaction and off target, but almost all readers, including ideologically motivated interpreters and modern biblical scholars with no desire to weaponize the curse, presume that a good interpretation should overcome the initial reaction that Noah's curse seems unjust. This book argues the opposite. Reading through the lens of interest convergence from critical race theory and performative utterances from speech act theory, this book proposes that intertextual connections between Genesis 9:18-29 and the stories in Genesis 2-3 show Noah and his actions as an ironic recurrence of the Adam and Eve narrative, and the injustice of Noah's curse serves as a crucial element in this ironic depiction and the primeval history as a whole.
