In [Step into the Metaverse](#) How the Immersive Internet Will Unlock a Trillion Dollar Social Economy, future tech strategist, entrepreneur and thought leader Dr. Mark van Rijmenam delivers a startlingly insightful discussion about how the world as we know it will fundamentally change as the physical and the digital worlds merge into the metaverse, impacting the everyday experiences of people, companies and societies. Explorations of the enormous and largely untapped potential for metaverse entertainment including gaming, music, media and sports, and how brands can engage with their customers in novel ways and how digital twins will change how we work and innovate. Considerations related to the dangers of an always-on immersive internet including data breaches, avatar imposters, mental health issues, corporate and state surveillance and the need for metaverse law.
