Addiction And Responsibility An Inquiry Into The Addictive Mind:

Addiction and Responsibility Francis F. Seeburger, 2013-07 Who if completely honest about it can deny that there is something in one's own life to fit the description of addiction For most of us if not all there is something to which we relate as though we cannot do without it Instead of comparing our lives negatively with those of famous addicts real or fictional attentive to all the ways we are not like them we need to develop an eye for the ways in which we are all too like them We need to let the light of their experiences illuminate our own lives permitting us to see the addiction present in ourselves This is an exact reprint of the original book first published in 1993 *The Recovery-Minded Church* Jonathan Benz, 2015-12-08

You want to have vibrant relationships with those who struggle with addiction in your church and community This practical resource for church leaders and congregations answers your pressing questions about addiction and recovery through real life stories the latest insights from medical science and a biblical framework for how to love the addicts in your midst

Toward a Phenomenology of Addiction: Embodiment, Technology, Transcendence Frank Schalow, 2017-10-11 This book addresses an epidemic that has developed on a global scale and which under the heading of addiction presents a new narrative about the travails of the human predicament The book introduces phenomenological motifs such as desire embodiment and temporality to uncover the existential roots of addiction and develops Martin Heidegger's insights into technology to uncover the challenge of becoming a self within the impulsiveness and depersonalization of our digital age By charting a new path of philosophical inquiry the book allows a pervasive cultural phenomenon ordinarily reserved to psychology to speak as a referendum about the danger which technology poses to us on a daily basis In this regard addiction ceases to be merely a clinical malady and instead becomes a signpost to exposing a hidden danger posed by the assimilation of our culture within a technological framework

Addiction and Responsibility Francis F. Seeburger, 1993 Is addiction a disease a behavior disorder a moral failing Is it genetic or learned What is it like to be addicted What are its roots and how can it be uprooted Anyone who has wrestled with such basic questions about addiction will find welcome answers in this groundbreaking philosophical inquiry into the addictive mind The author helps readers to understand addiction existentially as a fundamental way in which we can be Addiction argues the author bears witness to a basic human longing that no thing can satisfy It is a distortion of that longing one that misses its mark the original meaning of sin It leads to a complex process of disorientation in which the addict strips himself of ownership over himself and his own life Genuine freedom from addiction ultimately requires practicing a radical form of detachment in which we allow ordinary experience to wash over us with the full force of its true extraordinariness This reverses the process of disorientation and returns us to ourselves In such detachment we are given back responsibility the ability truly to respond to events rather than just reacting to them This major work is addressed to all those who have ever had to face addiction either in themselves or in those they love and who are still struggling to understand it Mining both Western and Eastern sources psychology and spirituality as well as

philosophy Addiction and Responsibility brings an important topic to a new level BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved *Addiction Nation* Timothy McMahan King, 2019-06-11 Opioids claim the lives of 115 people per day One of them could have been me When a near fatal illness led his doctors to prescribe narcotics media consultant Timothy McMahan King ended up where millions of others have addicted Eventually King learned to manage pain without opioids but not before he began asking profound questions about the spiritual and moral nature of addiction the companies complicit in creating the opioid epidemic and the paths toward healing and recovery We have become a society not only damaged by addiction but fueled by it In *Addiction Nation* King investigates the ways that addiction robs us of freedom and holds us back from being fully human Through stories theology philosophy and cultural analysis King examines today's most common addictions and their destructive consequences In stark yet intimate prose he looks not only at the rise of opioid abuse but at policy pain virtue and habit He also unpacks research showing patterns of addiction to technology stress and even political partisanship Addiction of any kind dims the image of God and corrupts who we were created to be *Addiction Nation* nudges us toward healing from the ravages of addiction and draws us toward a spirituality sturdy enough to sate our deepest longings *Free Will, Responsibility, and Crime* Ken M. Levy, 2019-08-28 In his book philosopher and law professor Ken Levy explains why he agrees with most people but not with most other philosophers about free will and responsibility Most people believe that we have both that is that our choices decisions and actions are neither determined nor undetermined but rather fully self determined By contrast most philosophers understand just how difficult it is to defend this metaphysical libertarian position So they tend to opt for two other theories responsibility skepticism which denies the very possibility of free will and responsibility and compatibilism which reduces free will and responsibility to properties that are compatible with determinism In opposition to both of these theories Levy explains how free will and responsibility are indeed metaphysically possible But he also cautions against the dogma that metaphysical libertarianism is actually true a widespread belief that continues to cause serious social political and legal harms Levy's book presents a crisp tight historically informed discussion with fresh clarity insight and originality It will become one of the definitive resources for students academics and general readers in this critical intersection among metaphysics ethics and criminal law Key features Presents a unique qualified defense of metaphysical libertarianism the idea that our choices decisions and actions can be fully self determined Written clearly accessibly and with minimal jargon rare for a book on the very difficult issues of free will and responsibility Seamlessly connects philosophical legal psychological and political issues Will be provocative and insightful for professional philosophers students and non philosophers **Addiction and Virtue** Kent Dunnington, 2025-06-16 What is the nature of addiction Neither of the two dominant models disease or choice adequately accounts for the experience of those who are addicted or of those who are seeking to help them In this interdisciplinary work Kent Dunnington brings the neglected resources of philosophical and theological analysis to bear on

the problem of addiction Drawing on the insights of Aristotle and Thomas Aquinas he formulates an alternative to the usual reductionistic models Going further Dunnington maintains that addiction is not just a problem facing individuals Its pervasiveness sheds prophetic light on our cultural moment Moving beyond issues of individual treatment this groundbreaking study also outlines significant implications for ministry within the local church context **Narcotics: A Global Challenge , Sobering Wisdom** Jerome A. Miller,Nicholas Plants,2014-12-31 Originally developed by Alcoholics Anonymous the Twelve Step program now provides life direction for the millions of people worldwide who are recovering from addiction and undergoing profound personal transformation Yet thus far it has received surprisingly little attention from philosophers despite the fact that like philosophy the program addresses all important questions regarding how we ought to live In *Sobering Wisdom* Jerome A Miller and Nicholas Plants offer a unique approach to the Twelve Step program by exploring its spirituality from a philosophical point of view Drawing on a variety of thinkers from Aristotle to William James and from Nietzsche to Foucault as well as a diverse range of philosophical perspectives including naturalism Buddhism existentialism Confucianism pragmatism and phenomenology the contributors to this volume address such questions as the relation of personal responsibility to an acknowledgment of powerlessness the existence of a higher power and the role of virtue in recovery Ranging in tone from deeply scholarly to intensely personal their essays are written in an accessible way for a broad audience that includes not only philosophers theologians and psychologists but also spiritual directors health professionals and addiction counselors Perhaps most important the book is also conceived for those involved in Twelve Step programs whose lives are being transformed by the experience Getting Hooked Jon Elster,Ole-Jørgen Skog,1999-03-13 The essays in this volume offer a thorough discussion of the relationship between addiction and rationality This book length treatment of the subject includes contributions from philosophers psychiatrists neurobiologists sociologists and economists Contrary to the widespread view that addicts are subject to overpowering and compulsive urges the authors in this volume demonstrate that addicts are capable of making choices and responding to incentives At the same time they disagree with Gary Becker s argument that addiction is the result of rational choice The volume offers an exposition of the neurophysiology of addiction a critical examination of the Becker theory of rational addiction an argument for a visceral theory of addiction a discussion of compulsive gambling as a form of addiction several discussions of George Ainslie s theory of hyperbolic discounting analyses of social causes and policy implications and an investigation of the problem of relapse
