Teenage Fatherhood and Delinquent Behavior Terence P. Thornberry, 2000 **Adolescent Parenthood** Max Sugar, 2012-12-06 The definition of the risks of adolescent childbearing has received considerable investigative attention during the last decade We have gradually moved away from simplistically studying young maternal age as the sole determinant of biologic and psychosocial outcome even though we recognize it is one of several factors which warrant consideration We now recognize that if adolescents receive adequate and consistent pre natal care they and their infants should do nearly as well as adult women and their infants of similar backgrounds Thus the major morbidities for adolescent mothers adolescent fathers and their infants are psychosocial lack of educational and vocational futures failed marriages and dependence on government aid for support The adequacy of the parenting of adolescent mothers and fathers and the long term developmental and physical outcomes of their children are largely unstudied This book edited by Dr Max Sugar a recognized authority on adolescence focuses on the important topic of adolescent parenthood The authors of this timely contribution approach the topic of adolescent parenthood in a unique fashion utilizing a combination of several approaches consideration of fictional characters in history astute and carefully conceptualized clinical observations reviews of the

literature and their own investigation It will be through the use of such a creative approach that we shall define the important questions which should be addressed about adolescents as parents and the outcome for their children

Perspectives on Midwifery and Parenthood Rita Borg Xuereb, Julie Jomeen, 2023-01-01 The book *Perspectives on Midwifery and Parenthood* explores contemporary issues relating to parenthood and midwifery This book bridges a gap in the literature where it highlights the close and unique relationships that midwives nurses doctors other health care professionals and students enjoy with women and men during their transition to parenthood Midwives work in close contact with and address the diverse needs of women and men during one of the most critical life's transitions preconception pregnancy childbirth and early parenting and its long term implications on the psychosocial emotional physical and spiritual wellbeing of parents and infants The chapters cover the transition and preparation for parenthood midwives and parental fetal tie in pregnancy perinatal mental health maternal wellbeing infertility repeated loss and surrogacy supporting early parenting following preterm birth adolescent pregnancy and early parenthood social challenges and parenthood including drug and alcohol use in pregnancy intimate partners violence migrants and transition to parenthood fathers transition to parenthood diversity of family formation LGBTQ parents breastfeeding the role of spirituality during pregnancy and midwifery and parenthood Each person is unique and so is the response to parenthood as the mother father and family embark on this new lifeworld a lifelong commitment The book is a compendium of contemporary research depicting the strengths opportunities and recommendations how midwives and other health care professionals can nurture optimal compassionate respectful person and family centred care during pregnancy and early parenting the transition to parenthood
