An Introduction to Technical Publishing Anthony H. Firman,1983 **Technical Publications Guide** ,1986

NASA Scientific and Technical Publications ,1993 **History of Romanian Technology and Industry** Dorel

Banabic,2023-12-18 This volume showcases the valuable achievements of the Romanian technology and industry worldwide It started from the premise that the history of Romanian technique is scarcely known outside the borders of Romania The main Romanian contributions to the world s technological heritage are missing except for a few names in the field of aviation from the great encyclopedias and dictionaries published worldwide This is due among other reasons to the insufficient promotion in widely spoken languages of the history of Romanian technology The multidisciplinary approach of the volumes means that the field of technology had to be split into several branches The present volume includes the following industries mining metallurgy oil natural gas machine building agricultural machinery military textiles and construction Folk technology the formation of the industrial system and mechanics are tackled in separate chapters For each field are engaged the collaboration of authors who have already published a history of their field Certain chapters were drafted with the aid of specialists who have played the part of policy makers in the elaboration of development strategies for Romania and who are familiar not only with the facts and the history of their field but also with the philosophy behind its development

Implementing Enterprise Data Warehousing Alan Schlukbier,2007-08-01 Designing complex analytical data structures is difficult enough but to do it for an entire enterprise becomes a real challenge This little primer provides a simple method of preparing your people for the complexity of this endeavor This is just like opening a new restaurant where certain components have to be designed and thought out before you start to build the kitchen You do not have to be an expert to build a data warehouse A lot can be outsourced but you do need to be able to create your own plan according to your culture s specific requirements Some cultures take more informing and training than others The pace and aggressiveness with which you unfold your plan is something that you understand best This primer defines the data warehouse components and helps you decide when they can be done in what order and by how many people Introduction to Environmental Remote Sensing
