An Oklahoma I Had Never Seen Before Alternative Views Of Oklahoma History:

An Oklahoma I Had Never Seen Before Davis D. Joyce, 1998-01-01 Davis D Joyce presents fourteen essays that interpret Oklahoma's unique populist past and address current political and social issues ranging from gender race and religion to popular music the energy industry and economics

Blood Matters Erik March Zissu, 2014-06-03 First Published in 2002 This study explores how the five tribes of Oklahoma Cherokees Chickasaws Choctaws Creeks and Seminoles strove to achieve political unity within their tribes during the first decades of the 20th century by forging a new sense of peoplehood around the idea of blood

The University of Oklahoma David W. Levy, 2015-11-13 In 1917 it was still possible for the University of Oklahoma's annual Catalogue to include a roster of every student's name and hometown A compact and close knit community those 2 500 students and their 130 professors studied and taught at a respectable though small relatively uncomplicated and rather insular regional university During the following third of a century the school underwent changes so profound that their cumulative effect amounted to a transformation This second volume in David Levy's projected three part history chronicles these changes charting the University's course through one of the most dramatic periods in American history Following Oklahoma's flagship school through decades that saw six U S presidents eleven state governors and five university presidents Volume 2 of The University of Oklahoma A History documents the institution's evolution into a complex diverse and multifaceted seat of learning By 1950 enrollment had increased fivefold and by every measure the number of colleges and campus buildings degrees awarded and programs offered volumes in the library faculty publications out of state and foreign students in attendance the University was on its way to becoming a world class educational institution Levy weaves together human and

institutional history as he describes the school's remarkable sometimes remarkably difficult development in response to unprecedented factors two world wars the cultural shifts of the 1920s the Great Depression the rise of the petroleum industry the farm crisis and Dust Bowl the emergence of new technologies and new political and social forces such as those promoting and resisting racial justice National and world events state politics campus leadership the ever changing student body in triumph and defeat in small successes and grand accomplishments all come to varied and vibrant life in this second installment of the definitive history of Oklahoma's storied center of learning *The Louisiana Purchase* Junius P.

Rodriguez, 2002-06-20 Published in celebration of the Purchase's bicentennial this resource offers a multifaceted view of a watershed American event In one easy access resource The Louisiana Purchase brings together the work of over 100 experts covering historical figures relevant legal and historical concepts states that formed in the new territory frontier outposts and the Native Americans uprooted by expansion westward The book examines every aspect and consequence of Thomas Jefferson's momentous transaction the largest real estate deal in American history Readers will learn how the purchase made Manifest Destiny really seem like destiny how it sparked the rise of America's urban industrial society and inflamed passions over the expansion of slavery and how it triggered tragic conflicts between the government and Native Americans as well as immeasurable environmental damage Ideal for students historians and public and private libraries the Encyclopedia is the most comprehensive reference ever compiled on an event so central to the American experience that it seems to lie at the heart of everything triumphant and tragic in our history Sooner Doughboys Write Home David W. Levy, 2025-02-25 Days before the armistice was signed ending World War I Stratton D Brooks third president of the University of Oklahoma sent a letter to every student former student and faculty member serving in the armed forces He had a request would each man write a letter in reply describing his experiences and impressions during his wartime service Dozens of them responded in late 1918 and early 1919 Now more than a century later historian David W Levy has selected and annotated fifty three of these letters Sooner Doughboys Write Home is a richly detailed and often poignant record of what these young men thought about the war and what they witnessed firsthand As Levy explains in his thorough introduction most of these young men or doughboys as they were called came from small Oklahoma towns and farms Suddenly thrust into strange and often dangerous circumstances after the United States entered the war in 1917 they betray in their letters an appealing innocence of this wider world For some of them it is a world of dreary inactivity and boredom punctuated by moments of breathtaking violence and danger Others marvel at sights in Paris and in Germany All the while they keep a sharp eye out for their Sooner classmates from Norman eager to share a quick drink or hurried chat Although these Sooner doughboys as Levy acknowledges were not ordinary given their privileged status as college students they observed the war from the field and not from some more remote vantage point Drawing on his expertise as an American historian and his extensive knowledge of the university's history Levy identifies and explains in ample footnotes the numerous people and places mentioned by the

letter writers In so doing he ties the experience of everyday Oklahomans to a global conflict that changed the course of history *Envisioning Landscapes, Making Worlds* Stephen Daniels, Dydia DeLyser, J. Nicholas Entrikin, Doug Richardson, 2012-03-15 There has been a remarkable resurgence in the past decade of intellectual interplay between geography and the humanities in both academic and public circles Terminology and concepts such as space place landscape mapping and geography are becoming pervasive as conceptual frameworks and core metaphors in recent publications by humanities scholars and well known writers *Envisioning Landscapes Making Worlds* examines the depth and complexity of human meaning invested in maps attached to landscapes and embedded in the spaces and places of modern life The clashing and blending of cultures caused by globalization and the new technologies that profoundly alter human environmental experience suggest new geographical narratives and representations that are explored here by a multidisciplinary group of authors With contributions from leading scholars this text is essential reading for scholars and students seeking to understand the new synergies and interconnectedness of geography and the humanities *The Great Oklahoma Swindle* Russell Cobb, 2022-03 Russell Cobb's *The Great Oklahoma Swindle* is a rousing and incisive examination of the regional culture and history of Flyover Country that demystifies the political conditions of the American Heartland *Breaking Down Barriers* David W. Levy, 2020-09-10 For nearly sixty years the University of Oklahoma in obedience to state law denied admission to African Americans Only in October 1948 did this racial barrier start to break down when an elderly teacher named George McLaurin became the first African American to enroll at the university McLaurin's case championed by the NAACP drew national attention and culminated in a U S Supreme Court decision In *Breaking Down Barriers* distinguished historian David W Levy chronicles the historically significant and at times poignant story of McLaurin's two year struggle to secure his rights Through exhaustive research Levy has uncovered as much as we can know about George McLaurin 1887 1968 a notably private person A veteran educator he was fully qualified for admission as a graduate student in the university's School of Education When the university denied his application solely on the basis of race McLaurin received immediate assistance from the NAACP and its lead attorney Thurgood Marshall who brilliantly defended his case in state and federal courts On his very first day of class as Levy details McLaurin had to sit in a special alcove separate from the white students in the classroom Photographs of McLaurin in this humiliating position set off a firestorm of national outrage Dozens of other African American men and women followed McLaurin to the university and Levy reviews the many bizarre contortions that university officials had to perform often against their own inclinations to accord with the state's mandate to keep black and white students apart in classrooms the library cafeterias and dormitories and the football stadium Ultimately in 1950 the U S Supreme Court swayed by the arguments of Marshall and his co counsel Robert Carter ruled in McLaurin's favor The decision as Levy explains stopped short of toppling the decades old doctrine of separate but equal But the case led directly to the 1954 landmark decision in *Brown v Board of Education* which finally declared that flawed policy unconstitutional
