Analytical Issues In Participatory Natural Resource Management:

Analytical Issues in Participatory Natural Resource Management Bhaskar Vira, Roger Jeffery, 2001 *Analytical Issues in Participatory Natural Resources* B. Vira, R. Jeffery, 2001-07-18 Attempts to manage natural resources through collaboration rather than competition by agreements rather than conflict have become the touchstone for many who see these efforts as the harbinger of global sustainable development The received wisdom suggests that participatory natural resource management projects work because traditional knowledge of the resources and existing social structures can be utilised to develop more effective strategies for resource use Participation is a flexible and adaptable concept which can reflect local circumstances and priorities The contributors to this volume advise caution as well as optimism for projects conducted in this way By drawing on the experience of NGOs national governments and donor sectors as well as academic researchers this volume analyses the theory and practice of participatory natural resource management and demonstrates the value of constructive dialogue between all those involved *Participatory Natural Resource Management* Sharad Singh Negi, 2001 With reference to India International Bibliography of Political Science British Library of Political and Economic Science, 2003-10-23 IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge of the social sciences *IBSS: Political Science: 2002 Vol.51* Compiled by the British Library of Political and Economic Science, 2004-03-01 First published in 1952 the International Bibliography of the Social Sciences anthropology economics political science and sociology is well established as a major bibliographic reference for students researchers and librarians in the social sciences worldwide Key features Authority rigorous standards are applied to make the IBSS the most authoritative selective bibliography ever produced Articles and books are selected on merit by some of the world's most expert librarians and academics Breadth today the IBSS covers over 2000 journals more than any other comparable resource The latest monograph publications are also included International Coverage the IBSS reviews scholarship published in over 30 languages including publications from Eastern Europe and the developing world User friendly organization all non English titles are word sections Extensive author subject and place name indexes are provided in both English and French Place your standing order now for the 2002 volumes of the the IBSS Anthropology 2002 Vol 48 December 2002 234x156 0 415 32634 6 u195 00 Economics 2002 Vol 51 December 2002 234x156 0 415 32635 4 u195 0 0 Political Science 2002 Vol 51 December 2002 234x156 0 415 32636 2 u195 00 Sociology 2002 Vol 52 December 2002 234x156 0 415 32637 0 u195 00 **Routledge International Handbook of Social and Environmental Change** Stewart Lockie, David A. Sonnenfeld, Dana R. Fisher, 2013-10-30 Today the risks associated with global environmental change and the dangers of extreme climatic and geological events remind us of humanity's dependence on favourable environmental conditions Our relationships with the landscapes and ecologies that we are a part of the plants and animals that we share them with and the natural resources that we extract lie at the heart of

contemporary social and political debates It is no longer possible to understand key social scientific concerns without at the same time also understanding contemporary patterns of ecosystem change The Routledge International Handbook of Social and Environmental Change reviews the major ways in which social scientists are conceptualizing more integrated perspectives on society and nature from the global to local levels The chapters in this volume by international experts from a variety of disciplines explore the challenges contradictions and consequences of social ecological change along with the uncertainties and governance dilemmas they create The contributions are based around the themes of Climate change energy and adaptation Urban environmental change and governance Risk uncertainty and social learning Re assembling social ecological systems With case studies from sectors across both developed and developing worlds the Handbook illustrates the inter connectedness of ecosystem health natural resource condition livelihood security social justice and development It will be of interest for students and scholars across the social sciences and natural sciences as well as to those interested and engaged in environmental policy at all levels

Using Multi-Criteria Decision Analysis in Natural Resource Management Tony Prato, 2017-03-02 Providing useful insights on the use of Multi Criteria Decision Analysis MCDA in natural resource management this book examines a number of empirical applications for several countries and a variety of natural resources It is shown that using MCDA in the management of water forestry wetland and other natural resources can substantially improve the design and implementation of natural resource and environmental policies Stakeholder involvement is also an important determinant of successful resource management and MCDA provides a useful and effective framework for getting stakeholders involved in resource management decisions Using Multi Criteria Decision Analysis in Natural Resource Management gives in depth analysis of the potential problems in applying these techniques including difficulties eliciting required information lack of suitable measures for environmental variables and the need to develop innovative methods to simplify the use of MCDA

Social and Gender Analysis in Natural Resource Management Ronnie Vernooy, 2006 Documents and reflects on the steps that researchers are taking to implement social and gender analysis including questions of class caste and ethnicity into their everyday work Combines both learning experiences and scientific results representing academic and nonacademic sectors a variety of research organizations and a number of natural resource management questions including biodiversity conservation crop and livestock improvement and sustainable grassland development The learning studies from China India Mongolia Nepal and Viet Nam illustrate challenges opportunities successes and disappointments and highlight the different methods used and adapted in the diverse contexts of South and Southeast Asia Concludes with a comparative analysis of the learning studies which highlights common issues and challenges

New Perspectives on Risk Communication Asa Boholm, 2013-12-16 That risk communication ranks high on the policymaking agenda is beyond discussion today The field is a point of intersection of social communication practical management and policy making It covers such diverse activities as to inform and educate the public about risk and risk

management in order to influence attitudes and behaviour to act in situations of emergency or crises to aid in decision making and to assist in conflict resolution Communication has grown into a major concern in current risk governance based on network co ordinated management of public affairs conducted by authorities and companies and is recognized as a key component in the government of risk This is especially salient in policy fields relating to environmental planning and resource management urban planning chemical and food regulation or infrastructure planning development and maintenance This book explores risk communication research with a focus on new theoretical perspectives research findings and applied goals It reflects on a broad range of innovative theoretical perspectives methodological approaches and empirical areas This book was published as a special issue of the Journal of Risk Research Participatory Research and Development for Sustainable Agriculture and Natural Resource Management Julian F. Gonsalves,2005 Intended for aspiring and new practitioners of Participatory Research and Development PR D as well as field based researchers in developing countries Highlights that agricultural research and development has become a joint approach to deal with diverse biophysical environments multiple livelihood goals rapid changes in local and global economies and an expanded range for stakeholders over agriculture and natural resources
