An Independent Foreign Policy For Peace And Cooperation:

A New Structure for Security, Peace, and Cooperation in the Persian Gulf Seyed Hossein Mousavian, 2020-11-17 Tensions between Iran and its Arab neighbors at the Persian Gulf have often been described as one of the challenges to the world peace and security over the past decade. As a result, one of the puzzles of the current international relations has been the question of whether or not there are prospects to resolve conflicts between Iran and Saudi Arabia and GCC and envision normalized friendly diplomatic relations between the two states. This book argues that normalized and friendly ties between Iran and Saudi Arabia is possible and indeed the author shows that there is a historical precedence for it even in the post 1979 revolutionary Iran. And if normalized and friendly diplomatic relations are possible between Iran and Saudi Arabia then it is not hard to envision that maladies of sectarianism as well as Sunni Shi'a conflict would subside in the region. The book draws on the author's involvement, conversations, interviews, and personal observations as Ambassador and official over several decades. The book tries to explore the possibilities of diplomatic resolutions to the existing conflicts between Iran and Saudi Arabia and offer a roadmap to achieving sustainable diplomatic relations.

China Foreign Policy and Government Guide Research On China's Strategy And Policy In Northeast Asia Qingcai Liu, 2024-11-27 Research on China's Strategy and Policy in Northeast Asia offers a comprehensive in depth and systematic analysis of China's strategy and policy in Northeast Asia. It examines the region's political, economic, security related and cultural dynamics with a focus on key issues and territorial sovereignty disputes. The research integrates theoretical, applied, strategic and policy based research methods to provide a multifaceted perspective. The analysis is framed through the lens of major country diplomacy with Chinese characteristics and China's foreign policy towards Northeast Asia. This book explores China's strategic vision for Northeast Asia, emphasizing the evolving international system in the region and China's strategic responses. It argues for the establishment of a new order of international relations in Northeast Asia characterized by equality, mutual trust, good neighborliness and cooperation. Additionally, the book addresses three fundamental issues: security threats and the development of security mechanisms, energy security challenges and energy system development, and the enhancement of trade, investment facilitation and regional economic cooperation. This book is an engaging read for scholars specializing in political, economic, security and cultural research on Northeast Asia as well as policymakers and strategists focused on China's foreign policy and diplomatic efforts in the region.
