Writing Margins Terry Kawashima, 2020-10-26 In texts from the mid Heian to the early Kamakura periods certain figures appear to be marginal or removed from centers of power But why do we see these figures in this way This study first seeks to answer this question by examining the details of the marginalizing discourse found in

these texts Who is portraying whom as marginal For what reason Is the discourse consistent The author next considers these texts in terms of the predilection of modern scholarship both Japanese and Western to label certain figures marginal She then poses the question Is this predilection a helpful tool or does it inscribe modern biases and misconceptions onto these texts

Minamata Timothy S. George, 2020-05-11 Nearly forty years after the outbreak of the Minamata Disease it remains one of the most horrific examples of environmental poisoning Based on primary documents and interviews this book describes three rounds of responses to this incidence of mercury poisoning focusing on the efforts of its victims and their supporters particularly the activities of grassroots movements and popular campaigns to secure redress Timothy S George argues that Japan's postwar democracy is ad hoc fragile and dependent on definition through citizen action and that the redress effort is exemplary of the great changes in the second and third postwar decades that redefined democracy in Japan

Illusory Abiding Natasha Heller, 2020-05-11 A groundbreaking monograph on Yuan dynasty Buddhism *Illusory Abiding* offers a cultural history of Buddhism through a case study of the eminent Chan master Zhongfeng Mingben Natasha Heller demonstrates that Mingben and other monks of his stature developed a range of cultural competencies through which they navigated social and intellectual relationships They mastered repertoires internal to their tradition for example guidelines for monastic life as well as those that allowed them to interact with broader elite audiences such as the ability to compose verses on plum blossoms These cultural exchanges took place within local religious and social networks and at the same time they comprised some of the very forces that formed these networks in the first place This monograph contributes to a more robust account of Chinese Buddhism in late imperial China and demonstrates the importance of situating monks as actors within broader sociocultural fields of practice and exchange

Wretched Rebels Lucien Bianco, 2020-03-17 This book a condensed translation of the prize winning *Jacqueries et révolution dans la Chine du XXe siècle* focuses on spontaneous rural unrest uninfluenced by revolutionary intellectuals Yet it raises issues inspired by the perennial concerns of revolutionary leaders such as peasant class consciousness and China's modernization The author shows that the predominant forms of protest were directed not against the landowning class but against agents of the state Foremost among them resistance to taxation had little to do with class struggle By contrast protest by poor agricultural laborers and heavily indebted households was extremely rare Other forms of social protest were reactions less to social exploitation than to oppression by local powerholders Peasant resistance to the late Qing new policy reforms did indeed impede China's modernization Decades later peasant efforts to evade conscription while motivated by abuses and inequities weakened the anti-Japanese resistance The concluding chapter stresses persistent features of rural protest It suggests that twentieth century Chinese peasants were less different from seventeenth or eighteenth century French peasants than might be imagined and points to continuities between pre and post 1949 rural protest

Superstitious Regimes Rebecca Nodostup, 2010-07-01 We live in a world shaped by secularism the separation of numinous power from political authority and religion from the political social and economic

realms of public life Not only has progress toward modernity often been equated with secularization but when religion is admitted into modernity it has been distinguished from superstition That such ideas are continually contested does not undercut their extraordinary influence These divisions underpin this investigation of the role of religion in the construction of modernity and political power during the Nanjing Decade 1927-1937 of Nationalist rule in China This book explores the modern recategorization of religious practices and people and examines how state power affected the religious lives and physical order of local communities It also looks at how politicians conceived of their own ritual role in an era when authority was meant to derive from popular sovereignty The claims of secular nationalism and mobilizational politics prompted the Nationalists to conceive of the world of religious association as a dangerous realm of superstition that would destroy the nation This is the first superstitious regime of the book's title It also convinced them that national feeling and faith in the party state would replace those ties the second superstitious regime

The Proletarian Wave Sunyoung Park, 2020-05-11 Socialist doctrines had an important influence on Korean writers and intellectuals of the early twentieth century From the 1910s through the 1940s a veritable wave of anarchist Marxist nationalist and feminist leftist groups swept the cultural scene with differing agendas as well as shared demands for equality and social justice In *The Proletarian Wave* Sunyoung Park reconstructs the complex mosaic of colonial leftist culture by focusing on literature as its most fertile and enduring expression The book combines a general overview of the literary left with the intellectual portraits of four writers whose works exemplify the stylistic range and colonial inflection of socialist culture in a rapidly modernizing Korea Bridging Marxist theory and postcolonial studies Park confronts Western preconceptions about third world socialist cultures while interrogating modern cultural history from a post Cold War global perspective *The Proletarian Wave* provides the first historical account in English of the complex interrelations of literature and socialist ideology in colonial Korea It details the origins development and influence of a movement that has shaped twentieth century Korean politics and aesthetics alike through an analysis that simultaneously engages some of the most debated and pressing issues of literary historiography Marxist criticism and postcolonial cultural studies

Writing, Publishing, and Reading Local Gazetteers in Imperial China, 1100-1700 Joseph R. Dennis, 2020-05-11 This book is the definitive study of imperial Chinese local gazetteers one of the most important sources for premodern Chinese studies Methodologically innovative it represents a major contribution to the history of books publishing reading and society By examining how gazetteers were read Joseph R Dennis illustrates their significance in local societies and national discourses His analysis of how gazetteers were initiated and produced reconceptualizes the geography of imperial Chinese publishing Whereas previous studies argued that publishing and thus cultural and intellectual power were concentrated in the southeast Dennis shows that publishing and book ownership were widely dispersed throughout China and books were found even in isolated locales Adding a dynamic element to our earlier understanding of the publishing industry Dennis tracks the movements of manuscripts to printers and print labor to

production sites By reconstructing printer business zones he demonstrates that publishers operated across long distances in trans regional markets He also creates the first substantial data set on publishing costs in early modern China a foundational breakthrough in understanding the world of Chinese books Dennis s work reveals areas for future research on newly identified regional publishing centers and the economics of book production
