An Outline of Modern Occultism Cyril Scott, 1974 **An Outline of Modern Occultism** Cyril Scott, 1950 **An Outline of Modern Occultism. Enlarged Edition** Cyril Scott, 1949 **An Outline of Modern Occultism, By Cyril Scott** Cyril Scott, 1949 Unknown : Outline of Modern Occultism Northwestern University Press, Penguin Books, Limited, 1988-09-01 **The greater awareness** Cyril Scott, 1981 **An Outline of the Principles of Modern Theosophy** Claude Falls Wright, 1894 **Modern Occultism in Late Imperial Russia** Julia Mannherz, 2012-10-15

Modern Occultism in Late Imperial Russia traces the history of occult thought and practice from its origins in private salons to its popularity in turn of the century mass culture In lucid prose Julia Mannherz examines the ferocious public debates of the 1870s on higher dimensional mathematics and the workings of seance phenomena discusses the world of cheap instruction manuals and popular occult journals and looks at haunted houses which brought together the rural settings and the urban masses that obsessed over them In addition Mannherz looks at reactions of Russian Orthodox theologians to the occult In spite of its prominence the role of the occult in turn of the century Russian culture has been largely ignored if not actively written out of histories of the modern state For specialists and students of Russian history culture and science as well as those generally interested in the occult Mannherz s fascinating study remedies this gap and returns the occult to its rightful place in the popular imagination of late nineteenth and early twentieth century Russian society An Outline of Occult Science Rudolf Steiner, 1922 An Outline of Occult Science is Rudolf Steiner s thesis discussing the unknown the nature of mankind and his belief that science may be used to explain the unusual phenomena known as the occult First published in 1910 this book strives to define categorize and explain various manifestations of the occult The author concedes at the opening of the book that many otherwise open minded and receptive individuals immediately recoil from the concept of the the unknown especially in relation to attempts to investigate it scientifically After introducing the occult Steiner delves into explaining the two worlds he thought comprised the reality we live in The natural world that which is visible and readily perceivable around us and the spiritual world where the unexplained phenomena arise The nature of man as a bodily being and how his physical self bridges the gap between these two worlds is much detailed Famous as a literary critic Rudolf Steiner s interest in the occult phenomena meant that much of his later life was characterized by research into spiritual texts He passionately believed that much of the strange paranormal or occult phenomena human beings have observed have a spiritual yet scientific explanation it is with this essential belief in mind that Steiner attempts to persuade the reader Although unusual in subject matter An Outline of Occult Science is written in an accessible style What would otherwise be dry and inscrutable is made interesting and exotic by Steiner who was used to writing for a popular audience in his career as a literary critic This edition of his book contains all of his original notes which are appended at the conclusion for ease of reference *The Greater Awareness* Cyril Scott, 1936
