Análisis De Datos Y Redacción De:

Metodología de la Investigación cuantitativa-cualitativa y redacción de la tesis Humberto Ñaupas

Paitán, Marcelino Raúl Valdivia Dueñas, Jesús Josefa Palacios Vilela, Hugo Eusebio Romero Delgado, 2019-03-01 Es para mí una satisfacción presentar la obra Metodología de la Investigación Cuantitativa Cualitativa y Redacción de Tesis a petición de sus autores a quienes agradezco por esta distinción. En la era de la información la complejidad de la construcción del conocimiento científico es cada vez mayor los cuestionamientos al método científico como el único camino para llegar al conocimiento han generado un movimiento importante en el claustro universitario. Así se empieza a trabajar la investigación cualitativa. Las ideas de Popper Lakatos y Feyerabend van calando en la comunidad universitaria sin desmerecer la presencia de Bunge.

Metodología de la investigación Humberto Ñaupas Paitán, 2014-01-01 Según los autores ciencia e investigación son las dos coordenadas fundamentales de la universidad moderna que aspira al desarrollo de su región y del país entero. La primera entra a docencia universitaria basada en teorías científicas rigurosamente verificadas o demostradas mediante el método científico. La segunda implica la misión fundamental de la universidad descubrimiento o producción de nuevos conocimientos científicos. Entre ambas existe una relación muy estrecha ya que no puede concebirse ciencia sin investigación ni investigación sin ciencia. En consecuencia la universidad peruana tiene el reto de cambiar de renacer de sus propias cenizas como el ave fénix para impulsar la ciencia la investigación científica tecnológica e innovaciones como la creación intelectual y otras actividades que afirmen su vocación humanística de investigación y de servicio a su entorno local regional nacional y continental. Justamente el contenido de esta quinta edición actualizada y ampliada está destinada a ofrecer un modelo de ciencia e investigación humanística es decir que permita resolver los angustiantes problemas regionales y nacionales. Como dicen los autores es una contribución didáctica para aprender a investigar y redactar la tesis no son reglas de oro ni los arcaísmos del que nos habla el eminente filósofo Mario Bunge pero sí es una brújula orientadora para no perderse en el mundo inquietante de la investigación científica. Para facilitar la lectura de esta quinta edición de 15 capítulos los autores acompañan notas explicativas referencias bibliográficas y documentales glosarios actividades de reflexión y aplicación mapas conceptuales en cada capítulo y 33 anexos al final del texto para ejemplificar técnicas instrumentos y tablas estadísticas tratados en el texto.

La escritura de un trabajo de fin de título en el área de educación: consejos y recomendaciones para su elaboración, lectura y defensa Haylen Perines, 2024-03-11 La elaboración lectura y defensa de un Trabajo de Fin de Título también

llamada tesis en otros países de Iberoamérica puede convertirse en una situación estresante para quienes están finalizando estudios universitarios. De hecho es habitual que muchas de estas personas se sientan ansiosas por terminar la tarea y acabarlo antes posible precisamente por el agobio que esto les puede ocasionar. Este libro pretende contribuir a que este camino no sea tan pedregoso y puedas enfrentar esta tarea con más recursos y seguridad. Para ello verás que el contenido del texto intenta combinar la teoría y la práctica a través de ejemplos y de comentarios sobre los errores frecuentes que acontecen en este tipo de trabajos. Por medio de cinco capítulos y a través de un enfoque preciso y a la vez profundo este texto se convertirá en tu mejor aliado para llegar a la meta sin sufrimientos y con un resultado óptimo y de buena calidad.

Características y abordajes de los procesos de escritura de géneros académicos Celia Galvalisi, 2020-05-02. A leer se aprende leyendo. A escribir se aprende escribiendo. A investigar se aprende investigando. Expresiones que conforman principios de la enseñanza en el ámbito de la educación superior teniendo en cuenta como prologa Rodríguez en esta obra el proceso de lingüización en el aprendizaje universitario está aparejado a los contenidos particulares de las lecturas y escrituras también junto al material de las discusiones y de los momentos de reflexión colectiva donde el trabajo de la cátedra debe ser nuestro laboratorio. En suma la mediación lingüística escrita y oral está en la trama de las interacciones educativas de cada materia de una carrera. Este material busca realizar un aporte en este sentido es una orientación para docentes y estudiantes en el proceso de escritura un manual guía. No fue elaborado pensando en un desarrollo teórico científico sobre géneros textuales académicos sino más bien en un aporte conceptual y procedimental de uso a lo largo de la formación y en la instancia de elaboración del trabajo final de grado.
