Women across Time / Mujeres a Través del Tiempo Susan L. Roberson, 2022-11-18 Sixteen South Texas women stand proudly in the public mural *Mujeres a Través del Tiempo* by Arnold Gonzales Sr housed on the campus of Texas A&M they are ranchers educators artists politicians and community activists they are general and specific known and unknown Inspired by the mural this study assumes the biographer's task to fill in the gaps of knowledge between the figures as seen and the lives they lived with their trials and triumphs Assembled by editor Susan L Roberson this collection features essays on the lives of the women who are depicted in the mural women who live or lived in the South Texas region between the Nueces River and the Rio Grande particularly Kleberg Kenedy and Nueces counties Situated near the boundary between Mexico and Texas these women navigated more than geographic borders as they tested their place in economic political and artistic arenas long recognized as male domains Taken together these biographical sketches contribute to a revision and reimagining of the history of South Texas and provide a corrective to an Anglo dominated history of the area by showing how Tejanas found places of leadership and creative outlets By sketching the contributions of female students at Texas A M University Kingsville the final essay brings the collection to the present and forecasts a future where opportunities for women extend beyond borders

Fiction Writers Darrell B. Lockhart, 2004-03-30 Many readers are unaware of the vast universe of Latin American science fiction which has its roots in the 18th century and has flourished to the present day Because science fiction is part of Latin American popular culture it reflects cultural and social concerns and comments on contemporary society While there is a growing body of criticism on Latin American science fiction most studies treat only a single author or work This reference

offers a broad overview of Latin American science fiction Included are alphabetically arranged entries on 70 Latin American science fiction writers While some of these are canonical figures others have been largely neglected Since much of science fiction has been written by women many women writers are profiled Each entry is prepared by an expert contributor and includes a short biography a discussion of the writer s works and primary and secondary bibliographies The volume closes with a general bibliography of anthologies and criticism

The Aesthetics of the Ephemeral Jennifer Duprey,2014-07-01 Analyzes theatrical texts and performances while providing political and historical mappings In *The Aesthetics of the Ephemeral* Jennifer Duprey examines five contemporary plays from Barcelona *Olors* and *Testament* by Josep Maria Benet i Jornet *Ant gona* by Jordi Coca *Forasters* by Sergi Belbel and *Temptaci* by Carles Batlle She argues that in both the theatrical text and its performance an aesthetics of the ephemeral materializes that is related to specific manifestations of cultural and historical memory in Spain and Catalonia These manifestations of memory include historical concerns such as the possibility of another form of justice in predicaments of violence after the Civil War and they also include contemporary issues such as the production of ruins by the processes of gentrification in Barcelona the complexity of immigration in Spain and the destruction or preservation of Catalan cultural legacies In her analysis of these topics Duprey engages and expands on theories related to questions of subjectivity and identity in late modernity This book will be of interest to those concerned with Iberian cultural studies and with how theater reflects on and contributes to contemporary political dialogue

The Two Faces of Inca History Isabel Yaya,2012-09-19 The historical narratives of the Inca dynasty known to us through Spanish records present several discrepancies that scholarship has long attributed to the biases and agendas of colonial actors Drawing on a redefinition of royal descent and a comparative literary analysis of primary sources this book restores the pre Hispanic voices embedded in the chronicles It identifies two distinctive bodies of Inca oral traditions each of which encloses a mutually conflicting representation of the past that considered together reproduces patterns of Cuzco s moiety division Building on this new insight the author revisits dual representations in the cosmology and ritual calendar of the ruling elite The result is a fresh contribution to ethnohistorical works that have explored native ways of constructing history

Yuthu Allison R. Davis,2011-01-01 The crown jewel of the Inka Empire was their capital Cusco So celebrated was the Cusco of Inka times that we sometimes forget how little we know of earlier times in the region This book presents Allison Davis pioneering excavations at the high altitude Formative site of Yuthu Davis presents all her data on early households and evidence for the villagers subsistence strategies craft production and mortuary practices From her excavations we learn a great deal about daily life and public rituals each conducted in a different sector of Yuthu An unexpected bonus of Davis excavations was the discovery that some well known Inka practices actually had their origin in the early villages of the Cusco region Before her work at Yuthu so few early houses and ceremonial structures had been published in detail for the Cusco area that we had much less evidence for understanding sacred versus secular space Davis excavations contribute to our

understanding of one of the most important transitions in Andean history the shift from autonomous egalitarian villages to multicomunity polities with hereditary inequality She is able to link archaeological houses sites and multisite clusters to socially meaningful units such as families villages and communities Davis is also able to combine her excavations with settlement pattern data to develop a regional picture of the Formative period in Cusco This volume is not only the first excavation report on a Formative village in the Cusco area but is also a study that contributes new data on many traditional Andean themes including zonal complementarity sacred landscapes community composition mummies and ancestor veneration ritual canals and religious rites and intra village subdivisions

Andean Foodways John E. Staller, 2020-12-01 There is widespread acknowledgement among anthropologists archaeologists ethnobotanists as well as researchers in related disciplines that specific foods and cuisines are linked very strongly to the formation and maintenance of cultural identity and ethnicity Strong associations of foodways with culture are particularly characteristic of South American Andean cultures Food and drink convey complex social and cultural meanings that can provide insights into regional interactions social complexity cultural hybridization and ethnogenesis This edited volume presents novel and creative anthropological archaeological historical and iconographic research on Andean food and culture from diverse temporal periods and spatial settings The breadth and scope of the contributions provides original insights into a diversity of topics such as the role of food in Andean political economies the transformation of foodways and cuisines through time and ancient iconographic representations of plants and animals that were used as food Thus this volume is distinguished from most of the published literature in that specific foods cuisines and culinary practices are the primary subject matter through which aspects of Andean culture are interpreted

Scripted Geographies Gayle R. Nunley, 2007 This study offers the first book length exploration of travel narratives by nineteenth century Spanish authors Focusing on texts produced during a crucial period in the development of Spain s modern consciousness at the close of its imperial age Scripted Geographies

shows how writers strategies of travel representation reflected and participated in this process of cultural transformation The first two chapters devoted to travel within Europe explore constructions of Spain s sometimes problematic encounter with Western society and traditions The final chapters shift to orientalist travel allowing reflection on how Spanish renderings of the non Western other intersect with patterns found in the better known corpus of orientalist literature produced in then ascendant imperial powers like Britain and France These textual constructions of cultural difference reflect at a profound level their authors preoccupations and hopes for Spain as well as their strong awareness of both the powers and dangers inherent in the process of representing real world experience via language Professor of Spanish at the University of Vermont
