**A Yank in Bomber Command** Robert Scott Raymond, Michael Moynihan, 1977-01-01 *A Yank in Bomber Command* Robert S. Raymond, 1998 This is Bob Raymond's war memoir of his time as a member of the Royal Air Force most especially his thirty combat bombing missions in late 1942 and early 1943 as the pilot of a four engine Avro Lancaster heavy bomber crewed by British Irish Canadian and one Kansas bred airmen Hdbd 6x 9 221 pgs 17 b w ill Lancaster Leo McKinstry, 2009-09-03 The Spitfire and the Lancaster were the two RAF weapons of victory in the Second World War but the glamour of the fighter has tended to overshadow the performance of the heavy bomber Yet without the Lancaster Britain would never have been able to take the fight to the German homeland Highlights the scale of the bomber's achievements including the famous Dambusters attacks With its vast bomb bay ease of handling and surprising speed the mighty Lancaster transformed the effectiveness of the Bomber Command Whilst addressing the political controversy surrounding the bombing offensive against Germany Leo McKinstry also weaves individual tales into this compelling narrative Rich characters are brought to life such as Roy Chadwick the designer who taught himself engineering at night school and Sir Arthur Harris the austere head of the Bomber Command This is a rich saga a story of triumph over disaster and the history of an iconic plane

The Berlin Blitz By Those Who Were There Martin W. Bowman, 2023-04-30 The Allied bombing of Berlin was the longest and most sustained bombing offensive against one target in the Second World War The Berlin Blitz By Those Who Were There is a compelling gripping and thought provoking story of the Allied bombing forces and the ordinary people on the ground told in their own tongue and with meticulous attention to detail The result is a coherent single story which unfolds in a straightforward and incisive narrative This work draws attention in some detail to the major raids on the Reich capital by RAF Bomber Command from the late summer of 1940 to September 1943 It begins with the reliable but largely ineffective twin engined Blenheims Hampdens Wellingtons and Whitleys through to the introduction into front line service of the four engined heavies the Stirling Manchester and Halifax which bore the brunt of the bomber offensive until the advent of the incomparable Avro Lancaster in 1942 and the superlative Mosquito On 30 January 1943 on the tenth anniversary of Hitler's usurpation of power two formations each of three Mosquitoes appeared over Berlin in daylight and interrupted large rallies being addressed by Goering and Goebbels Sir Arthur Harris Commander in Chief RAF Bomber Command hoped to wreck Berlin from end to end and produce a state of devastation in which German surrender is inevitable But the Big City as it was known to his faithful old lags was never completely destroyed *Death from the Skies* Dietmar Süß, 2014-02-06 The German Blitz that followed the Battle of Britain killed tens of thousands and laid waste to large areas of many British cities And although the destruction of 1940 was never repeated on the same scale fears that Hitler possessed a secret weapon of mass destruction never entirely died and were partially realized in the V1 and V2 raids of 1944 5 The British and American response to the Blitz especially from 1943 onwards was massive and incomparably more devastating with apocalyptic

consequences for German cities such as Hamburg Dresden and Berlin to name but the most prominent In this ground breaking new book German historian Dietmar S ss investigates the effects of the bombing on both Britain and Nazi Germany showing how these two very different societies sought to withstand the onslaught and keep up morale amidst the material devastation and psychological trauma that was visited upon them And as he reflects in the conclusion this is not a story that is safely confined to the past the debate over the rights and the wrongs of the mass bombing of British and German cities during World War II remains a highly emotional subject even today

**Courage and Air Warfare** Mark K. Wells,2014-03-05 Colonel Wells investigates the nature of aerial warfare and the men who took part The book analyzes aircrew selection reaction to combat adaptability to stress morale leadership and combat effectiveness and compares the efforts of the US Eighth Air Force and RAF Bomber Command

*Got Any Gum Chum?* Helen D Millgate,2009-04-30 When the first American servicemen arrived in England in March 1942 the indigenous population greeted their presence with mixed feelings A certain level of resentment of these newcomers was harboured by the English and expressed by many in the in the well worn phase of the time over paid over sexed and over here But without the presence of American servicemen in Britain and its huge military and industrial muscle the war with Germany would probably have been lost Using a combination of contemporary eyewitness and documentary sources plus latter day interviews linked together by engaging narrative Helen Millgate takes a look at the background to the friendly invasion where they all came from who they were where they were stationed and what they did She examines how the Yanks got on with the locals how they fitted in or didn t their impact on the social structure of England in the 1940s the problems they brought with them and their impressions of England She concludes with the journey home once the war in Europe had ended describing what the Yanks left behind them and the wives and sweethearts they took stateside

**Nachtjagd** Martin W. Bowman,2016-01-31 This new volume from Martin Bowman examines the first three years of the Second World War consolidating first hand accounts from German fighter pilots caught up in some of the most dramatic night time conflicts of the early war years Viewing Bomber Command s operations through the eyes of the enemy the reader is offered a fresh and intriguing perspective Set in context by Bowman s historical narrative these snippets of pilot testimony work to offer an authentic sense of events as they played out

**Last of the Lancasters** Martin W. Bowman,2014-11-30 The Lancasters looked like enormous deadly black birds going off into the night somehow they looked different when they came back The planes carried from this field 117 000 pounds of high explosives and the crews flew all night to drop the load as ordered Now the trains would not run between France and Italy for a while not on those bombed tracks anyhow Here are the men who did it with mussed hair and weary faces dirty sweaters under their flying suits sleep bright eyes making humble comradely little jokes and eating their saved up chocolate bars Martha GellhornThis riveting and highly intriguing collection of pilot and civilian reminiscences works to commemorate the spirit of the almighty Lancaster bomber Each chapter is dedicated to a unique

individual or group of individuals who took part in its history in some capacity Be they pilot civilian or journalist each played their own part and their accounts offer a host of fascinating insights Episodes featured include the battle for Munich and the Nuremburg and Berlin Raids Stories of PoWs downed in their Lancasters and captured in enemy territory also feature communicating a real sense of peril experienced behind enemy lines Two sections of fascinating black and white photographs supplement and complete this trawl through the history of the Lancaster bomber and the men and women who witnessed its glory days
