The Very Busy Day

by Diane Mendry

Before You Read: Looking at the cover, ask, "What time of year do you think this story takes place? How can you tell?"

Reading Time: Read the story aloud to your child. As you read, pause and make predictions about what Little Mouse's dream might be.

After You Read: Ask the questions: "Do you think Little Mouse should have helped out? Why or why not?" "Did this story remind you of another story you have heard or read before?"

Pick an Activity

I Spy

Go back into the book and look at the pictures. What household items do you recognize being used for something different than what you might use them for? Make a list of what you find.

Example: Fork – used as a shovel

A Big Dream

Little Mouse had a big dream. He wanted to do something special for Big Mouse. If you could do something for someone, what would it be? What would you need to make the dream come true? You can make a list of items or draw a picture to help describe your thinking.

Miniature Wheelbarrow

Create your very own miniature wheelbarrow just like Mouse. You need 2 clothespins, 1 toothpick, empty thread spool, small box, and glue. Put the toothpick through the thread spool and attach a clothespin to each end. Glue the box on top of clothespins. Let dry.

Daisy Chain Math

Little Mouse made a daisy chain. Each daisy had 10 petals. If he used 5 daisies, how many petals were there altogether? (Need a hint? Count by 10s!)

Little Mouse picked 5 daisies. He needs 30 to make a chain. How many more daisies does he need to pick?

ENGLISH 7 F PRIMA GRUPO EDITORIAL, 2017-12-21

Sun Up Engaging REAL WORLD tasks for seventh graders is an integrated skills book which has been developed based on the Costa Rican English new program starting in 2017 for seventh graders. The book is ideal to study over an academic year. Students practice the four skills through communicative activities that follow the Task Based Approach in four stages. To achieve the language competence, this book is divided into six scenarios; each scenario is divided into four themes and an extension section called review and expand. Each theme organizes the tasks into two main components: oral and written comprehension and oral and written production. The Action Oriented Approach states that students are social agents who use the target language to perform specific actions in real life contexts. To be coherent with this basic principle, the seventh grade English book includes the use of digital technology in the development of mini projects and critical thinking by letting students make decisions through problem solving situations. SUNup Engaging REAL WORLD tasks for seventh graders has been designed to consolidate the A1 band based on the Common European Framework. In the extension activities, students are expected to reinforce grammar and sentence frames as well as reading comprehension. At the end of each scenario, students are expected to check their progress which derive from the linguistic competences. Learner can use a Can do check list. A flexible classroom arrangement is recommended so that students can have opportunities to walk around and work in pairs or individually which will provide them with the opportunity of developing learners' meta cognitive, meta affective and meta social strategies in an organized purposeful and scaffolded learning experience. Besides the students' book, teachers have access to the audio material and the teachers' guide. The F PRIMA Publishing house focuses on supporting English Teachers in the process of understanding and implementing the new English syllabus approved by the Consejo Superior de Educaci n in the year 2016. Thank you for your commitment to the goal of transforming English Classrooms across Costa Rica.
