A Woman Of Singular Occupation:

A Woman of Singular Occupation Penelope Gilliatt, 1990 **The Cambridge Guide to Women's Writing in English** Lorna Sage, 1999-09-30 This Guide aims to consolidate and epitomise the re-reading of women's writing that has gone on in the last twenty-five years. This is an opportunity for stock-taking a timely project when so much writing has been rediscovered, reclaimed and republished. There are entries on writers, on individual texts and on general terms, genres and movements, all printed in a single alphabetical sequence. The earliest written documents in medieval English, the visionary writings of Julian of Norwich and Margery Kempe, are covered in an historical and geographical sweep that takes us up to the present day. The book reflects the spread of literacy, the history of colonisation and the development of post-colonial cultures, using and changing the English language. The entries are written by contributors from all the countries covered. The result is a work of reference with a unique feeling for the vitality, wealth and diversity of women's writing. **The psychology of woman**, tr. by G.A. Etchison, Laura Hansson, 1899 *A Dictionary of Writers and their Works* Christopher Riches, Michael Cox, 2015-01-29 Over 3,200 entries. An essential guide to authors and their works that focuses on the general canon of British literature from the fifteenth century to the present. There is also some coverage of non-fiction such as biographies, memoirs and science, as well as inclusion of major American and Commonwealth writers. This online exclusive new edition adds 60,000 new words, including over 50 new entries dealing with authors who have risen to prominence in the last five years, as well as fully updating the entries that currently exist. Each entry provides details of a writer's nationality and birth/death dates, followed by a listing of their titles arranged chronologically by date of publication. **Alverston Park** William Frank, 2024-12-06 In *Alverston Park*, author William Frank gives a deep bow to Jane Austen with a story of love and societal boundaries. Helena Mowbray, a clergyman's daughter, warns her two younger sisters about the impossibility of marrying nobility. Yet this does little to deter the trio of charismatic Fitzosborne brothers, sons of the Earl of Alverston, who find themselves captivated by the Mowbray sisters during the London social season. Set against the opulent backdrop of Regency England, complete with grand balls, architectural splendour and society scandals, the narrative weaves in events like a secret newborn and a daring journey to Napoleon's island prison in the South Atlantic. Through misadventures and tragedies, the tale explores the consequences of class prejudice and the elusive nature of happiness, reflecting issues still resonant in contemporary high society. **The Oxford English Literary History: Volume 12: The Last of England?** Randall Stevenson, 2005-11-10 English literature in the 1960s soon threw off its post-war weariness and the tepid influences of the previous decade. New voices, new visions and new commitments profoundly reshaped writing during the 60s and throughout the rest of the century. Drama thrived on its rapidly rebuilt foundations. New freedoms of style and form revitalised fiction. Poetry too gradually recovered the variety and inventiveness of earlier years. As well as comprehensively charting these changes in the literary field, Randall Stevenson persuasively pinpoints their origins in the historical, social and intellectual

pressures of the times Literary developments are revealingly related to the wider evolution and profound changes in English experience in the late twentieth century to shadows of war and loss of empire declining influences of class shifting relations between the genders emergent minority and counter cultures and the broadening democratization of contemporary life in general Analyses of the rise of literary theory of publishing and the book trade and of the pervasive influences of modernism and postmodernism contribute further to an impressively thorough insightful description of writing in the later twentieth century a literary period Stevenson shows to be far more imaginative and exciting than has yet been recognised Lucid accessible and engaging this volume of the Oxford English Literary History presents a unique illumination of its age one we have lived through but are only just beginning to understand The first full account of its period it will set the agenda for discussion of late twentieth century literature for many years to come

The Oxford Companion to Twentieth-Century Literature in English Jenny Stringer,1996-09-26 This is a unique new reference book to English language writers and writing throughout the present century in all major genres and from all around the world from Joseph Conrad to Will Self Virginia Woolf to David Mamet Ezra Pound to Peter Carey James Joyce to Amy Tan The survivors of the Victorian age who feature in The Oxford Companion to Twentieth Century Literature in English writers such as Thomas Hardy Olive Schreiner Rabindranath Tagore Henry James could hardly have imagined how richly diverse Literature in English would become by the end of the century Fiction plays poetry and a whole range of non fictional writing are celebrated in this informative readable and catholic reference book which includes entries on literary movements periodicals and over 400 individual works as well as articles on some 2 400 authors All the great literary figures are included whether American or Australian British Irish or Indian African or Canadian or Caribbean among them Samuel Beckett Edith Wharton Patrick White T S Eliot Derek Walcott D H Lawrence Tennessee Williams Vladimir Nabokov Wole Soyinka Sylvia Plath as well as a wealth of less obviously canonical writers from Ana s Nin to L M Montgomery Bob Dylan to Terry Pratchett The book comes right up to date with contemporary figures such as Toni Morrison Ben Okri Salman Rushdie Carol Shields Tim Winton Nadine Gordimer Vikram Seth Don DeLillo and many others Title entries range from Aaron s Rod to The Zoo Story topics from Angry Young Men Bestsellers and Concrete Poetry to Soap Opera Vietnam Writing and Westerns A lively introduction by John Sutherland highlights the various and sometimes contradictory canons that have emerged over the century and the increasingly international sources of writing in English which the Companion records Catering for all literary tastes this is the most comprehensive single volume guide to modern and postmodern literature
