The Science Fiction of Poetics and the Avant-Garde Imagination Michael Golston,2023-11-19 How the tropes of science fiction infuse and inform avant garde poetics and many other kindred arts This insightful playful monograph from Golston does exactly what it advertises modeling poetics based on how poetry and some parallel artistic endeavors has filtered through a century plus of science fiction This is not a book about science fiction in and of itself but it is a book about the resonances of science fiction tropes and ideas in poetic language The germ of Golston s project is a throwaway line in Robert Smithson s Entropy and the New Monuments about how cinema supplanted nature as inspiration for many of his fellow artists The movies give a ritual pattern to the lives of many artists and this induces a kind of low budget mysticism which keeps them in a perpetual trance Golston charts how the demotic appeal of sci fi much like that of the B movie cross pollinated into poetry and other branches of the avant garde Golston creates what he calls a regular Rube Goldberg machine of a critical apparatus drawing on Walter Benjamin Roman Jakobson and Gilles Deleuze He starts by acknowledging that per the important work of Darko Suvin to situate science fiction critically the genre is premised on cognitive estrangement But he is not interested in the specific nuts and bolts of science fiction as it exists but rather how science fiction has created a model not only for other poets but also for musicians and landscape artists Golston s critical lens moves around quite a bit but he begins with familiar enough subjects Edgar Rice Burroughs Mina Loy William S Burroughs From there he moves into more alien terrain Ed Dorn s long poem Gunslinger the discombobulated work of Clark Coolidge Sun Ra Ornette Coleman and Jimi Hendrix all come under consideration The result of Golston s restless rich scholarship is the first substantial monograph on science fiction and avant garde poetics using Russian Formalism Frankfurt School dialectics and Deleuzian theory to show how the avant garde inherently follows the parameters of sci fi in both theme and form

Page, 2018-06-07 James Gunn one of the founding figures of science fiction scholarship and teaching wrote in 1951 what is likely the first master's thesis on modern science fiction Portions were in the short lived pulp magazine Dynamic but it has otherwise remained unavailable Here in its first full publication the thesis explores many of the classic Golden Age stories of the 1940s and the critical perspective that informed Gunn's essential genre history Alternate Worlds and his anthology series The Road to Science Fiction The editor's introduction and commentary show the historical significance of Gunn's work and its relevance to today's science fiction studies
