A Work Of Art:

How to Read a Work of Art Laura Hensley, 2011 Discusses how to interpret a work of art and guides readers as they interpret art throughout the book *The Work of Art* Michael D. Jackson, 2016-10-25 How are we to think of works of art Rather than treat art as an expression of individual genius market forces or aesthetic principles Michael Jackson focuses on how art effects transformations in our lives Art opens up transitional ritual or utopian spaces that enable us to reconcile inward imperatives and outward constraints thereby making our lives more manageable and meaningful Art allows us to strike a balance between being actors and being acted upon Drawing on his ethnographic fieldwork in Aboriginal Australia and West Africa as well as insights from psychoanalysis religious studies literature and the philosophy of art Jackson deploys an extraordinary range of references from Bruegel to Beuys Paleolithic art to performance art Michelangelo to Munch to explore the symbolic labor whereby human beings make themselves both individually and socially out of the environmental biographical and physical materials that affect them a process that connects art with gestation storytelling and dreaming and illuminates the elementary forms of religious life **Essays on the Nature of Art** Eliot Deutsch, 1996-11-01 In this newest book the author presents a theory of art which is at once universal in its general conception and historically grounded in its attention to aesthetic practices in diverse cultures The author argues that especially today art not only enjoys a special kind of autonomy but also has important social and political responsibilities Deutsch posits that an art work has as its intentionality the striving to be aesthetically forceful meaningful and beautiful with each of these dimensions culturally situated Working from traditional imitation and expression theories he argues that the manner of an artwork's coming into being and one's experience of it constitutes an integral whole Selected aspects of painting poetry dance architecture films and music are offered to deepen an understanding of the concepts presented Also included are several inter connected themes focusing on the difficult and controversial issues of interpreting art truth in art and the relations between art and morality and art and religion This is Not Just a Painting Bernard Lahire, 2019-04-15 In 2008 the Musée des Beaux Arts de Lyon acquired a painting called *The Flight into Egypt* which was attributed to the French artist Nicolas Poussin Thought to have been painted in 1657 the painting had gone missing for more than three centuries Several versions were rediscovered in the 1980s and one was passed from hand to hand from a family who had no idea of its value to gallery owners and eventually to the museum A painting that had been sold as a decorative object in 1986 for around 12 000 euros was acquired two decades later by the Musée des Beaux Arts de Lyon for 17 million euros What does this remarkable story tell us about the nature of art and the way that it is valued How is it that what seemed to be just an ordinary canvas could be transformed into a masterpiece that a decorative object could become a national treasure This is a story permeated by social magic the social alchemy that transforms lead into gold the ordinary into the extraordinary the profane into the sacred Focusing on this extraordinary case Bernard Lahire lays bare the beliefs and social processes that underpin the creation of a masterpiece Like

a detective piecing together the clues in an unsolved mystery he carefully reconstructs the steps that led from the same material object being treated as a copy of insignificant value to being endowed with the status of a highly prized painting commanding a record breaking price He thereby shows that a painting is never just a painting and is always more than a piece of stretched canvass to which brush strokes of paint have been applied this object and the value we attach to it is also the product of a complex array of social processes with its distinctive institutions and experts that lies behind it And through the history of this painting Lahire uncovers some of the fundamental structures of our social world For the social magic that can transform a painting from a simple copy into a masterpiece is similar to the social magic that is present throughout our societies in economics and politics as much as art and religion a magic that results from the spell cast by power on those who tacitly recognize its authority By following the trail of a single work of art Lahire interrogates the foundations on which our perceptions of value and our belief in institutions rest and exposes the forms of domination which lie hidden behind our admiration of works of art

Art and Theory of Art Rudolf

Steiner,2021-10-19 An Author s Summary 1888 Four Essays Written between 1890 and 1898 Eight Lectures between 1909 and 1921 CW 271 The challenge of saying something about art was personal for Rudolf Steiner He experienced it as deeply connected with his biography It is not for nothing that in the last lecture of this volume he points to his repeated attempts to develop a new approach and new forms of expression for speaking about art We find at least three forms of this attempted approach in this book Zvi Szir from the introduction The subject practice and vital importance of art was a thread that ran through Rudolf Steiner s life from his early work as a scholar of Goethe through his time as an editor of a literary and arts journal in Berlin in the 1890s and to his two and a half decades as a spiritual researcher and teacher Understanding and articulating the significance of art was a perennial challenge for Rudolf Steiner This volume of Steiner s Collected Works is unique in that it showcases a survey of both early written works and later lectures to anthroposophic audiences and in doing so presents a picture of a lifetime of intensive effort to convey something essential about the arts Beginning with his early philosophical work and literary criticism at the end of the nineteenth century and on into his later lectures this volume follows Steiner s endeavor to reveal in words the mystery obscured by the vague concept of what art is Viewed as a whole this volume forms one of the most provocative collections of the twentieth century on the subject of art It offers a unique analysis of the origin foundation and method of the creative process This book is a translation of Kunst und Kunsterkenntnis Grundlagen einer neuen sthetik 3rd edition published by Rudolf Steiner Verlag Dornach Switzerland 2010 GA 271 **Code of Federal Regulations** United States. Internal Revenue Service,1989 Special edition of the Federal register containing a codification of documents of general applicability and future effect as of Apr 1 with ancillaries **The Creative Matrix of the Origins** Anna-Teresa Tymieniecka,2002 Creative force or creative shaping This unprecedented effort to plumb the workings of the ontoipoiesis of life by disentangling its primordial forces and shaping devices as they enter into the originary

matrixes of life yields fascinating insights Prepared by the investigation of the first two matrixes the womb of life and sharing in life *Analecta Husserliana* Volume 74 the present collection of essays focuses upon the third and crowning creative matrix *Imaginatio Creatrix* here proves itself to be the source and driving force which brings us to the origins of the human mind human life Studies by Elof Axel Carlson A T Tymieniecka N Milkov Eldon C Wait K Rokstad M Golaszewska M K le W Kim Rogers Piotr Mr z R Pinilla Burgos A Carrillo Can n G R Ronsivalle J E Smith A Pawliszyn A Rizzacasa L Galzigna and M Galzigna Jiro Watanabe M Jakubczak K Tarnowski M Durst W Pawliszyn R A Kurenkova Carmen Cozma E Supinska Polit I S Fiut Gerald Nyenhuis Osvaldo Rossi R D Sweeney and D Ulicka **The Art Experience** Alex Rajczi, 2024-04-24 The Art Experience An Introduction to Philosophy and the Arts takes readers on an engaging and accessible journey that explores a series of fundamental questions about the nature of art and aesthetic value The book s 12 chapters explore three questions What makes something a work of art How should we experience art to get the most out of it Once we understand art how should we evaluate whether it is good or bad Philosophical theory is illustrated with concrete examples the paintings of Frida Kahlo the music of Johann Sebastian Bach the masks of the Nso people and many others Classic questions are balanced with cutting edge challenges such as Linda Nochlin s work on the exclusion of women from the artistic canon The Art Experience presupposes no prior knowledge of philosophy or art and it will be of interest to any reader seeking an accessible and engaging introduction to this field Along the way readers learn how philosophical theories can affect our real world experiences with painting music theater and many other art forms Key Features Accessible for any college student assumes no knowledge of philosophy art theory or any artistic medium Organizes topics conceptually rather than historically allowing students to more easily grasp the core issues themselves rather than tracing their historical evolution Offers readers a large number of contemporary examples and a consistent focus on the way theory can affect people s real world experiences with art Explores questions about bias for example whether the artistic canon has excluded some groups unfairly and whether definitions of art are Western biased **‘Being Towards Death’** Sylvie Avakian, 2021-04-19 This book draws the philosophical contribution of Martin Heidegger together with theological spiritual insights from the East especially that of Nikolai Berdyaev Thus it brings into dialogue the West with the East and philosophy with theology By doing so it offers Christian theology an existential spiritual language that is relevant and meaningful for the contemporary reader In particular the work explores Heidegger s being towards death *Sein zum Tode* as the basis for theological philosophical thinking Only the one who embraces being towards death has the courage to think and poetize This thinking in turn makes being towards death possible and in this circular movement of thinking and being the mystery of being reveals itself and yet remains hidden Since the work aims at demonstrating being towards death through language it transitions away from the common formulations and traditionally accepted ways of writing dogmatic theology towards an original philosophical reflection on faith and spirituality At different points however the work also retrieves the profound thoughts and theologies of the past the
