American Furniture in the Metropolitan Museum of Art Metropolitan Museum of Art (New York, N.Y.), Morrison H. Heckscher, 1985 This publication documents The Metropolitan Museum of Art's collection of early colonial furniture and presents a broad spectrum of furniture forms made in America during the 17th and early 18th centuries including chairs and other seating tables boxes various types of chests and cupboards dressing tables and desks The volume also includes prime examples of the different modes of ornamentation in fashion during that period Over 140 objects are thoroughly described with detailed information given on each one's construction condition dimensions materials and inscriptions and other marks as well as provenance and exhibition history Every object is explained in terms of the styles and craftsmanship of the period and evaluated in light of comparative pieces in public and private collections throughout the country Also included is one appendix containing photographic details of construction and decorative elements and another

with line drawings explaining furniture terms and showing various types of joints and moldings This is the first volume in a series of two that is dedicated to American furniture in the Museum Metropolitan Museum of Art website *Two Hundred Years of American Clocks & Watches* Chris H. Bailey, 1975 Traces the art of clockmaking from the era of handcrafting to present day automation Routledge Library Editions: Philosophy of Time Various Authors, 2021-03-05 Reissuing five works originally published between 1937 and 1991 this collection contains books addressing the subject of time from a mostly philosophic point of view but also of interest to those in the science and mathematics worlds These texts are brought back into print in this small set of works addressing how we think about time the history of the philosophy of time the measurement of time theories of relativity and discussions of the wider thinking about time and space among other aspects One volume is a thorough bibliography collating references on the subject of time across many disciplines *Time: A Bibliographic Guide* Samuel L. Macey, 2018-10-10 Originally published in 1991 A multidisciplinary guide in the form of a bibliography of selected time related books and articles divided into 25 existing academic disciplines and about 100 subdisciplines which have a wide application to time studies *A Republic in Time* Thomas M. Allen, 2008-02-25 The development of the American nation has typically been interpreted in terms of its expansion through space specifically its growth westward In this innovative study Thomas Allen posits time not space as the most significant territory of the young nation He argues that beginning in the nineteenth century the actual geography of the nation became less important as Americans imagined the future as their true national territory Allen explores how transformations in the perception of time shaped American conceptions of democratic society and modern nationhood He focuses on three ways of imagining time the romantic historical time that prevailed at the outset of the nineteenth century the geological deep time that arose as widely read scientific works displaced biblical chronology with a new scale of millions of years of natural history and the technology driven clock time that became central to American culture by century s end Allen analyzes cultural artifacts ranging from clocks and scientific treatises to paintings and literary narratives to show how Americans made use of these diverse ideas about time to create competing visions of American nationhood **The American Clock** William H. Distin, Robert Bishop, 1983 The most all encompassing work on the subject to be published in many years The American Clock is certain to become a standard reference work in this important and ever growing field of collecting The book is not intended to be a history of clockmaking in America instead its purpose is to collect into one volume a very large number of significant clocks of all types so that collectors will have a substantial pictorial reference with which to compare their own acquisitions and to extend their knowledge of the field Compiled by William H Distin a well know authority on clock who is a fellow and former Director of the National Association of Watch and Clock Collectors this 360 page book presents almost 700 black and white illustrations 84 color plates a 65 page listing of 6153 American clockmakers and a glossary of clock terms Also over 100 of the photographs show close ups of the dials and works of many different clocks Of special interest is the fact that most of the

clocks assembled in this volume are published in this book for the first time for the majority of them have been photographed from private collections The illustrations are divided into the following main categories Tower Clocks Tall Case Clocks Dwarf Tall Case Clocks Bracket Clocks Massachusetts Shelf Clocks Lighthouse Clocks Shelf Clocks Novelty Clocks Tools and Wall Clocks The index lists the clockmakers alphabetically with the clocks illustrated arranged under the name of each maker In every respect The American Clock is a most impressive and handsome production that will prove highly useful for years to come to all collectors and students in the field Provided by publisher
