Loco Motrix Amelia Rosselli, 2012-03 A musician musicologist and self defined poet of research Amelia Rosselli 1930-96 was one of the most important poets to emerge from Europe in the aftermath of World War II Following a childhood and adolescence spent in exile from Fascist Italy between France England and the United States Rosselli was driven to express the hopes and devastations of the postwar epoch through her demanding and defamiliarizing lines Rosselli's trilingual body of work synthesizes a hybrid literary heritage stretching from Dante and the troubadours through Ezra Pound and John Berryman in which playful inventions across Italian English and French coexist with unadorned social critique In a period dominated by the confessional mode Rosselli aspired to compose stanzas characterized by a new objectivity and collective orientation where the I is the public where the I is things where the I is the things that happen Having chosen Italy as an ideal fatherland Rosselli wrote searching and often discomposing verse that redefined the domain of Italian poetics and in the process irrevocably changed the Italian language This collection the first to bring together a generous selection of her poems and prose in English and in translation is enhanced by an extensive critical introduction and notes by translator Jennifer Scappettone Equipping readers with the context for better apprehending Rosselli's experimental approach to language *Locomotrix* seeks to introduce English language readers to the extraordinary career of this crucial if still eclipsed voice of the twentieth century

The Small Worlds of Childhood Lauren Shizuko Stone, 2025-05-06 The Small Worlds of Childhood argues that prose representations of bourgeois childhood contain surprising opportunities to reflect on the temporality of experience In their narratives of children at home in their everyday worlds Adalbert Stifter Rainer Maria Rilke and Walter Benjamin are not only able to shed a unique light on key issues in the history of philosophy They also offer a queer critique of the normative expectation that the literature of childhood is oriented toward the future Stone shows that when writers engage in philosophical storytelling showing children tarrying in quotidian experience they dislodge childhood from its nostalgic value to grown ups and the heteronormative demand to grow up Such stories of children as philosophical subjects thus take on their own lingering backwards or all together strange sense of time Stone demonstrates the necessity of recognizing how texts on childhood before and beyond Freud engage literary language in the service of a variety of philosophical attitudes reminding us how poetic techniques can tell us something extraordinary about moments of ordinary experience and the manner with which humans and especially children cognize the world By bringing canonical German language literary and philosophical traditions into conversation with current English language queer approaches Stone opens a queer counter history of German and Austrian realist and modernist literature This title is available from the publisher on an open access basis
