Attack Of The Blob Hannah Arendts Concept Of The Social

Mira L. Siegelberg

Attack Of The Blob Hannah Arendts Concept Of The Social:

The Attack of the Blob Hanna Fenichel Pitkin, 2021-02-16 The European intellectual Hannah Arendt worried about the tendency of social structures to take on a life of their own and paralyze individual action Pitkin is determined to trace our problems to the actions of individuals This book is thus a battle of wits A vivid sketch of the conflict between two basic outlooks Library Journal One leaves this book feeling enriched and challenged Pitkin prompts us to rethink our understanding of Arendt and to demythologize the pervasive sense of political helplessness Arendt herself sought so hard to articulate A cause for celebration Peter Baehr Times Literary Supplement Arendt is certainly among the most original and outstanding political theorists of the twentieth century It is difficult to imagine a hostile critic examining more effectively than Pitkin Arendt's concept of the social for hostility would inhibit the acquisition of the mastery of Arendt's texts that Pitkin displays at every turn Peter Berkowitz New Republic

Feminist Interpretations of Hannah Arendt Bonnie

Honig, 2010-11-01 **Hannah Arendt, Totalitarianism, and the Social Sciences** Peter Baehr, 2010-03-11 This book examines the nature of totalitarianism as interpreted by some of the finest minds of the twentieth century It focuses on Hannah Arendt's claim that totalitarianism was an entirely unprecedented regime and that the social sciences had integrally misconstrued it A sociologist who is a critical admirer of Arendt Baehr looks sympathetically at Arendt's objections to social science and shows that her complaints were in many respects justified Avoiding broad disciplinary endorsements or dismissals Baehr reconstructs the theoretical and political stakes of Arendt's encounters with prominent social scientists such as David Riesman Raymond Aron and Jules Monnerot In presenting the first systematic appraisal of Arendt's critique of the social sciences Baehr examines what it means to see an event as unprecedented Furthermore he adapts Arendt and Aron's philosophies to shed light on modern Islamist terrorism and to ask whether it should be categorized alongside Stalinism and National Socialism as totalitarian *Hannah Arendt and the Specter of Totalitarianism* Marilyn LaFay, 2014-02-12 This work positions Arendt as a political writer attempting to find a way in which humanity poised between the Holocaust and the atom bomb might reclaim its position as the creators of a world fit for human habitation

The Political Humanism of Hannah Arendt Michael H. McCarthy, 2012-08-17 At the end of the Second World War when the horror of the Holocaust became known Hannah Arendt committed herself to a work of remembrance and reflection Intellectual integrity demanded that we comprehend and articulate the genesis and meaning of totalitarian terror What earlier spiritual and moral collapse had made totalitarian regimes possible What was the basis of their evident mass appeal To what cultural resources and political institutions and traditions could we turn to prevent their recurrence After years of profound study Arendt concluded that the deepest crisis of the modern world was political and that the enduring appeal of political mass movements demonstrated how profound that crisis had become For Arendt the modern political crisis is also a crisis of humanism The radical totalitarian experiment was rooted in two distorted images of the human being The agents of terror believed in the limitless power

generated by strategic organization a power exercised without restraint and justified by appeal to historical necessity The victims of terror by contrast were systematically dehumanized by the ruling ideology and then brutally deprived of their legal rights and their moral and existential dignity Arendt's political humanism directly challenges both of these distorted images the first because it dangerously inflates human power the second because it deliberately subverts human freedom and agency This book offers a dialectical account of the political crisis that Arendt identified and shows why her interpretation of that crisis is especially relevant today The author also provides detailed analysis and appraisal of Arendt's political humanism the revisionary anthropology she based on the politically engaged republican citizen Finally the work distinguishes the merits from the limitations of Arendt's genealogical critique of our tradition of political thought showing that she tended to be right in what she affirmed and wrong in what she excluded or omitted

The Reluctant Modernism of Hannah Arendt Seyla Benhabib, 2003-07-01 Interpreting the work of one of the most influential thinkers of the 20th century The Reluctant Modernism of Hannah Arendt rereads Arendt's political philosophy in light of newly gained insights into the historico cultural background of her work Arguing against the standard interpretation of Hannah Arendt as an anti modernist lover of the Greek polis author Seyla Benhabib contends that Arendt's thought emerges out of a double legacy German Existenz philosophy particularly the thought of Martin Heidegger and her experiences as a German Jewess in the age of totalitarianism This important volume reconsiders Arendt's theory of modernity her concept of the public sphere her distinction between the social and the political her theory of totalitarianism and her critique of the modern nation state including her life long involvement with Jewish and Israeli politics

Hannah Arendt and Simone Weil Kathryn Lawson, Joshua Livingstone, 2024-02-22 Hannah Arendt and Simone Weil were two of the most compelling political thinkers of the 20th century who despite having similar life experiences developed radically distinct political philosophies This unique dialogue between the writings of Arendt and Weil highlights Arendt's secular humanism her emphasis on heroic action and her rejection of the moral approach to politics contrasted starkly with Weil's religious approach her faith in the power of divine Goodness and her other centric ethic of suffering and affliction The writings here respect the profound differences between Arendt and Weil whilst pulling out the shared preoccupations of power violence freedom resistance responsibility attention aesthetics and vulnerability Without shying away from exploring the more difficult concepts in these philosophers works Hannah Arendt and Simone Weil also aims to pull out the relevance of their writings for contemporary issues

The Cambridge Companion to Hannah Arendt Dana Villa, 2000-11-30 A distinguished team of contributors examines the primary themes of Arendt's multi faceted thought

Democratic Anxieties Mario Feit, 2011-03-15 Democratic Anxieties Same Sex Marriage Death and Citizenship proceeds from the surprising parallels between straight and gay opponents of same sex marriage With their apocalyptic rhetoric they inadvertently point to a frequently neglected existential dimension of democratic citizenship Democratic Anxieties argues that we must pay attention to the existential significance of democratic

citizenship because otherwise we end up with anxious democracy a democracy that cannot fully embrace pluralism especially when the connections between sex death and citizenship are at stake This book pursues a less anxious conception of democratic citizenship in chapters on Jean Jacques Rousseau Hannah Arendt and Friedrich Nietzsche Feit reveals how Rousseau diminishes democratic citizenship by linking it to existential consolation via sexual reproduction He interprets Arendt as a queer theorist because she rejects the heteronormative pursuit of reproductive immortality Yet the hope for immortality persists within Arendt s conception of political action which delimits its democratic potential Feit argues that Nietzsche resists both Rousseau s political idealization of heterosexuality and Arendt s anxious alternative Calling for an affirmation of death Nietzsche creatively reimagines sexual as well as cultural reproduction that pluralizes democratic citizenship The resulting more existentially aware democratic politics not only contributes to lesbian and gay equality but is also critical in a post September 11 world

Statelessness Mira L. Siegelberg, 2020-10-06 The post WWI crisis of statelessness induced creative legal thinking as officials and jurists debated cosmopolitan citizenship beyond the borders of sovereigns But by midcentury the state won out as the lone site of citizenship Mira Siegelberg uncovers the ideological roots of this transformation and its impact on the international order

This Engaging World of E-book Books: A Thorough Guide Revealing the Advantages of Kindle Books: A World of Convenience and Flexibility Kindle books, with their inherent portability and simplicity of access, have liberated readers from the limitations of hardcopy books. Gone are the days of lugging cumbersome novels or meticulously searching for particular titles in shops.
