Black Selfdetermination A Cultural History Of Africanamerican Resistance

Robert L. Harris, Rosalyn Terborg-Penn

Black Selfdetermination A Cultural History Of Africanamerican Resistance:

Black Self-determination Vincent P. Franklin,1992 Explains that from the late eighteenth to the twentieth centuries Black mass movements have been acts of self determination and not acts of assimilation into white society Black Self-determination Vincent P. Franklin,1984 This path breaking study questions many of the previous assessments of the cultural objectives of Afro Americans and points the way toward the new and decisive role black Americans may soon be playing in American life V P Franklin associate professor of History and Afro American studies at Yale University examines the core values of the Afro American experience He quotes from early slave narratives songs sermons and interviews with ex slaves to show how Afro Americans came to value freedom resistance and black unity and to formulate cultural values separate from white dominated society Back cover **African American History Reconsidered** Pero Gaglio Dagbovie,2010 This volume establishes new perspectives on African American history The author discusses a wide range of issues and themes for understanding and analyzing African American history the 20th century African American historical enterprise and the teaching of African American history for the 21st century *Malcolm X and the Poetics of Haki Madhubuti* Regina Jennings,2006-10-12 Illustrating the power of oratory in the 1960s and its successful merging with the art of that era this text examines the significance of Malcolm X as a literary muse for Haki Madhubuti one of America s premiere poets and essayists Long after the death of Malcolm X Haki Mudhubuti continued to expound on X s major oratorical themes including the effort to destroy the racial appellation Negro and to create new definitions for words that relate to Africa X s persistence in oratory during the 1960s influenced an art movement that changed the psychology and behavior of American Blacks Through a historical and literary analysis of Black poetry this text charts how selected writers exhibited great tensions around issues of race until the arrival of the 1960s generation of artists This book contributes to a broader understanding of Malcolm X and his impact on American writing and culture **A Companion to African-American Philosophy** Tommy L. Lott,John P. Pittman,2003-04-11 This wide ranging multidisciplinary collection of newly commissioned articles brings together distinguished voices in the field of Africana philosophy and African American social and political thought Provides a comprehensive critical survey of African American philosophical thought Collects wide ranging multidisciplinary newly commissioned articles in one authoritative volume Serves as a benchmark work of reference for courses in philosophy social and political thought cultural studies and African American studies The (Underground) Railroad in African American Literature Darcy Zabel,2004 The Underground Railroad in African American Literature offers a brief history of the African American experience of the railroad and the uses of railroad history by a wide assortment of twentieth century African American poets dramatists and fiction writers Moreover this literary history examines the ways in which trains train history and legendary train figures such as Harriet Tubman and John Henry have served as literary symbols This repeated use of the train symbol and associated train people in twentieth century African American literature creates a sense of literary

continuity and a well established aesthetic tradition all too frequently overlooked in many traditional approaches to the study of African American writing The metaphoric possibilities associated with the railroad and the persistence of the train as a literary symbol in African American writing demonstrates the symbol s ongoing literary value for twentieth century African American writers writers who invite their readers to look back at the various points in history where America got off track and who also dare to invite their readers to imagine an alternate route for the future

The Columbia Guide to African American History Since 1939 Robert L. Harris, Rosalyn Terborg-Penn, 2006 A multifaceted approach to understanding the central developments in African American history since 1939 It combines a historical overview of key personalities and movements with essays on specific facets of the African American experience a chronology of events and a guide to further study From publisher description

Afrocentrism Stephen Howe, 1999-08-17 For centuries racist colonial and Eurocentric bias has blocked or distorted knowledge of Africans their histories and cultures resulting in a counter mythology claiming the innate superiority of African descended peoples In this provocative study historian Stephen Howe challenges this Afrocentric rewriting of African history 16 photos Copyright Libri GmbH All rights reserved

American While Black Niambi Michele Carter, 2019-08-15 What has an expanded immigration regime meant for how blacks express national attachment In this book Niambi Michele Carter argues that immigration both historically and in the contemporary moment has served as a reminder of the limited inclusion of African Americans in the body politic Blacks use immigration as a way to express their concerns about how race operates to structure and constrain their place in the American political landscape Carter draws on original interview material and empirical data on African American political opinion to offer the first theory of black public opinion toward immigration

The Harvard Guide to African-American History Evelyn Brooks Higginbotham, 2001 This massive guide sponsored by the W E B Du Bois Institute for Afro American Research at Harvard University and compiled by renowned experts offers a compendium of information and interpretation on over 500 years of black experience in America
