Black White Fantasy:

Under Construction Marie-Anne Kohl, 2021-01-14 While currently identitarian ideologies and essentialist notions of identity that tend to simplify and reduce life experience to simple factors are globally regaining massive attention it becomes inevitable to recollect the thorough discussions of identity concepts of the past three decades It also calls for an ever keener awareness of and capacity to deal with the complexity and diversity of the world we live in Artists play a major role in the potential reflection and transformation of perceptions and conceptions of the world musicians dancers choreographers spoken word artists performance artists actors also fine art installation media artists or photographers alike Performing critical identity points to performative practices of artists that bring to the fore a critical self awareness and self positioning concerning identification and belonging Social identities such as gender sexuality race class disability age or non religiosity are closely linked to the historical social regional and political dimensions of their formation From this perspective identities are hardly one dimensional but complex and intersectional and are rather to be thought of as a process of identification and belonging than as a consistent essence As different maybe contradictory among themselves as they are the performative works of artists such as Lerato Shadi Liad Hussein Kantorowicz Nora Chipaumire Shu Lea Cheang Zanele Muholi Ohno Kazuo Anohni Hegarty Neo H lcker We re Muslim Don t Panic or of theatre collectives such as RambaZamba and Thikwa Theater in Berlin or Theater Hora in Zurich to name but a very small quite random selection of artists share a critical approach towards hegemonic norms or stereotyping of identities and their representations and empower diversity This edition puts a specific focus on the performativity of the aesthetic practices and wants to explore different artistic approaches strategies tactics and perspectives of artists when they address identity issues when they target power relations and structures of oppression and inequality when they empower concepts of diversity This Call for Papers invites academic as well as artistic contributions that delve into case studies of artists performing critical identity or into more general theoretical reflections on the subject Contributions can relate to but are not limited to following topics intersectionality subversion self empowerment resistance subalternity exploitation manipulation anti feminism appropriation cultural globalisation transculturality hybrid identities collectives body stage audience de construction of the difference of aesthetic genres and of high popular culture capitalism colonialism re production of exclusion Dr Marie Anne Kohl Editor **Secret**

Violences Slawomir Maslon, 2023-04-06 Although Michelangelo Antonioni became one of the icons of modernist cinema in the 1960s his position in the pantheon of great directors has never been quite secure Unlike his famous contemporaries such as Ingmar Bergman and Luchino Visconti whose essential contribution to the art of cinema is hardly ever questioned Antonioni's work has been repeatedly denigrated from many angles for both aesthetic and political reasons Though the historical importance of some of Antonioni's films as an incarnation of certain attitudes and problems characteristic of the 1960s and 70s is not denied they are often considered pass artificial and boring Contesting prevalent readings which focus

on existential and psychological motifs involving anxiety and the malady of sentiments this book offers a re evaluation of Antonioni s most important films interpreted as political cinema engaged with issues which are still crucial in the 21st century Far from being politically neutral Antonioni s oblique and abstract approach makes possible the prising open and devaluation of the morally and politically constrictive organic narrative structures His approach overthrows the primacy of character and plot on the one hand by showing them to be emanations of the spectral materiality of capital and on the other hand by allowing for an opening into the utopian dimension implying engagement in the rethinking of our attachments to the world

Reel Racism Vincent F. Rocchio,2000-12-22 Analyzes specific films to demonstrate how they participate in the process of racism

The Michael Eric Dyson Reader Michael Eric Dyson,2008-08-05 Over the past ten years the work of Michael Eric Dyson has become the first stop for readers writers and thinkers eager for uncommon wisdom on the racial and political dynamics of contemporary America Whether writing on religion or sexuality or notions of whiteness on Martin Luther King Jr or Tupac Shakur Dyson s keen insight and rhetorical flair continue to surprise and challenge This collection gathers the best of Dyson s growing body of work his most incisive commentary his most stirring passages and his sharpest most probing and broadminded critical analyses From Michael Jordan to Derrida Ralph Ellison to the diplomacy of Colin Powell the mastery and ease with which Dyson tackles just about any subject is without parallel

Blackness in Western Europe Dienke Hondius,2017-09-29 While the study of race relations in the United States continues to inspire and influence European thinking Europeans have yet to confront their own history To be black in Europe whether during the sixteenth century or today means sharing one crucial experience being part of a small but visible minority European slave owners company directors and investors in the distant past maintained an ocean wide gap between themselves and the enslaved in the plantation colonies of the Caribbean In the following centuries this distance persisted Even today to be black in Europe often

means to be one of a few black persons in a group. A racial pattern of exclusion has characterized European policy for more than four centuries. Dienne Hondius identifies ideas and attitudes toward blackness, the concept of race as visible difference developed in western Europe. She argues that racial discourses are generally dominated by paternalism, a concept usually used to explain power structures that is often applied to the nineteenth century. Hondius identifies five patterns of paternalism that influenced Europe much earlier and initiated trends of imagery and perception. Taking a chronological and thematic approach, Hondius first focuses on southern European societies in the Early Modern period and moves to northwest European societies in the Modern period. Addressing religion, law, and science, she concludes with a synthesis of developments from the twentieth century to the present.

Living with Hate in American Politics and Religion Jeffrey

Israel, 2019-04-23 In the United States, people are deeply divided along lines of race, class, political party, gender, sexuality, and religion. Many believe that historical grievances must eventually be left behind in the interest of progress toward a more just and unified society. But too much in American history is unforgivable and cannot be forgotten. How then can we imagine a way to live together that does not expect people to let go of their entrenched resentments? *Living with Hate in American Politics and Religion* offers an innovative argument for the power of playfulness in popular culture to make our capacity for coexistence imaginable. Jeffrey Israel explores how people from different backgrounds can pursue justice together even as they play with their divisive grudges, prejudices, and desires in their cultural lives. Israel calls on us to distinguish between what belongs in a raucous domain of play and what belongs in the domain of the political. He builds on the thought of John Rawls and Martha Nussbaum to defend the liberal tradition against challenges posed by Frantz Fanon from the left and Leo Strauss from the right. In provocative readings of Lenny Bruce's stand-up comedy, Philip Roth's Portnoy's Complaint, and Norman Lear's *All in the Family*, Israel argues that postwar Jewish American popular culture offers potent and fruitful examples of playing with fraught emotions. *Living with Hate in American Politics and Religion* is a powerful vision of what it means to live with others without forgiving or forgetting.
