Black San Francisco The Struggle For Racial Equality In The West 1900 1954:

Black San Francisco Albert S. Broussard, 1993-04-26 By 1867 black San Franciscans had gained access to public transportation In 1869 they were granted the right to vote by the state of California In 1875 they fought for desegregated schools and won Yet in 1957 Willie Mays was initially denied the opportunity to purchase a home in an exclusive San Francisco neighborhood because he was black In **Black San Francisco** Albert Broussard explores race relations in a city where whites for the most part were outwardly civil to blacks while denying them employment opportunities and political power Understanding the texture of the racial caste system he argues is critical to understanding why blacks made so little progress in employment housing and politics despite the absence of segregation laws When it came to racial equality in the early twentieth century Broussard argues the liberal progressive image of San Francisco was largely a facade Illustrating how black San Franciscans struggled to achieve equality in the same manner as their counterparts in the Midwest and East he challenges the rhetoric of progress and opportunity with evidence of the reality of inequality for black San Franciscans **Black San Francisco** is considerably broader in scope than any previous study of African Americans in the West It provides extensive coverage of the city's black community during the Great Depression and the New Deal details civil rights activities from 1915 to 1954 and provides extensive biographical material on local black leaders In his reconstruction of the plight of San Francisco's black citizens Broussard reveals a population that despite its small size before 1940 did not accept second class citizenship passively yet remained nonviolent into the 1960s He also shows how World War II was a watershed for Black San Francisco bringing thousands of southern migrants to the bay area to work in the war industries These migrants in tandem with native black residents formed coalitions with white liberals to attack racial inequality more vigorously and successfully than at any previous time in San Francisco's history

Black San Francisco Albert S. Broussard, 1993 This work explores race relations in the city of San Francisco where whites for the most part were outwardly civil to blacks while denying them employment opportunities and political power The author argues that it is essential to understand the nature of the racial caste system

The Black Antifascist Tradition Jeanelle K. Hope, Bill V. Mullen, 2024-04-02 The story of the fight against fascism across the African diaspora revealing that Black antifascism has always been vital to global freedom struggles At once a history for understanding fascism and a handbook for organizing against *The Black Antifascist Tradition* is an essential book for understanding our present moment and the challenges ahead From London to the Caribbean from Ethiopia to Harlem from Black Lives Matter to abolition Black radicals and writers have long understood fascism as a threat to the survival of Black people around the world and to everyone In *The Black Antifascist Tradition* scholar activists Jeanelle K Hope and Bill Mullen show how generations of Black activists and intellectuals from Ida B Wells in the fight against lynching to Angela Y Davis in the fight against the prison industrial complex have stood within a tradition of Black Antifascism As Davis once observed pointing to the importance of anti Black racism in the development of facism as an

ideology Black people have been the first and most deeply injured victims of fascism Indeed the experience of living under and resisting racial capitalism has often made Black radicals aware of the potential for fascism to take hold long before others understood this danger The book explores the powerful ideas and activism of Paul Robeson Mary McLeod Bethune Claudia Jones W E B Du Bois Walter Rodney Frantz Fanon Aime Cesaire and Walter Rodney as well as that of the Civil Rights Congress the Black Liberation Army and the We Charge Genocide movement among others In shining a light on fascism and anti Blackness Hope and Mullen argue the writers and organizers featured in this book have also developed urgent tools and strategies for overcoming it

The Forging of a Black Community Quintard Taylor, 2022-06-07 Seattle's first black resident was a sailor named Manuel Lopes who arrived in 1858 and became the small community's first barber He left in the early 1870s to seek economic prosperity elsewhere but as Seattle transformed from a stopover town to a full fledged city African Americans began to stay and build a community By the early twentieth century black life in Seattle coalesced in the Central District a four square mile section east of downtown Black Seattle however was never a monolith Through world wars economic booms and busts and the civil rights movement black residents and leaders negotiated intragroup conflicts and had varied approaches to challenging racial inequity Despite these differences they nurtured a distinct African American culture and black urban community ethos With a new foreword and afterword this second edition of *The Forging of a Black Community* is essential to understanding the history and present of the largest black community in the Pacific Northwest

The San Francisco Nexus in World War II Philip E. Meza, 2023-09-05 In *The San Francisco Nexus in World War II* Freedoms Found Liberties Lost and the Atomic Bomb Meza tells the story of important events in the San Francisco Bay Area that have consequences still felt to date He traces the invention of the atomic bomb from a speculative design for a nuclear weapon sketched on a chalkboard at Berkeley by theoretical physicist Robert Oppenheimer and helped made real by Big Science that was pioneered by his friend and colleague experimental physicist Ernest Lawrence During this time Black Americans migrated to San Francisco to escape the Jim Crow South finding new freedoms good jobs and a leader in a singer turned welder named Joseph James Meza shows how James fought for and won an end to segregation in his union taking a large step toward the civil rights movement At the same time Japanese Americans were forced from their homes by a tragically misguided presidential executive order upheld by the US Supreme Court illustrating the fragility of liberty in America These events continue to shape the world today

African American Women Confront the West, 1600-2000 Quintard Taylor, Shirley Ann Wilson Moore, 2008-08-01 Reconstructs the history of black women's participation in western settlement A stellar collection of essays by talented authors who explore fascinating topics *Journal of American Ethnic History* African American Women Confront the West 1600-2000 is the first major historical anthology on the topic The editors argue that African American women in the West played active though sometimes unacknowledged roles in shaping the political ideological and social currents that have influenced the United States over the past three centuries Contributors to

this volume explore African American women s life experiences in the West their influences on the experiences of the region s diverse peoples and their legacy in rural and urban communities from Montana to Texas and from California to Kansas The essayists explore what it has meant to be an African American woman from the era of Spanish colonial rule in eighteenth century New Mexico to the black power era of the 1960s and 1970s Black Americans and the Civil Rights Movement in the West Bruce A. Glasrud,Cary D. Wintz,2019-02-14 In 1927 Beatrice Cannady succeeded in removing racist language from the Oregon Constitution During World War II Rowena Moore fought for the right of black women to work in Omaha s meat packinghouses In 1942 Thelma Paige used the courts to equalize the salaries of black and white schoolteachers across Texas In 1950 Lucinda Todd of Topeka laid the groundwork for the landmark Supreme Court decision Brown v Board of Education These actions including sit ins long before the Greensboro sit ins of 1960 occurred well beyond the borders of the American South and East regions most known as the home of the civil rights movement By considering social justice efforts in western cities and states Black Americans and the Civil Rights Movement in the West convincingly integrates the West into the historical narrative of black Americans struggle for civil rights From Iowa and Minnesota to the Pacific Northwest and from Texas to the Dakotas black westerners initiated a wide array of civil rights activities in the early to late twentieth century Connected to national struggles as much as they were tailored to local situations these efforts predated or prefigured events in the East and South In this collection editors Bruce A Glasrud and Cary D Wintz bring these moments into sharp focus as the contributors note the ways in which the racial and ethnic diversity of the West shaped a specific kind of African American activism Concentrating on the far West the mountain states the desert Southwest the upper Midwest and states both southern and western the contributors examine black westerners responses to racism in its various manifestations whether as school segregation in Dallas job discrimination in Seattle or housing bias in San Francisco Together their essays establish in unprecedented detail how efforts to challenge discrimination impacted and changed the West and ultimately the United States Race Still Matters Yuya Kiuchi,2016-11-15 More than half a century after the civil rights era of the mid 1950s to the late 1960s American society is often characterized as postracial In other words that the country has moved away from prejudice based on skin color and we live in a colorblind society The reality however is the opposite African Americans continue to face both explicit and latent discriminations in housing healthcare education and every facet of their lives Recent cases involving law enforcement officers shooting unarmed Black men also attest to the reality the problem of the twenty first century is still the problem of the color line In Race Still Matters contributors drawn from a wide array of disciplines use multidisciplinary methods to explore topics such as Black family experiences hate crimes race and popular culture residual discrimination economic and occupational opportunity gaps healthcare disparities education law enforcement issues youth culture and the depiction of Black female athletes The volume offers irrefutable evidence that race still very much matters in the United States today The Gateway to the Pacific Meredith Oda,2019-01-03 In the decades following World War II

municipal leaders and ordinary citizens embraced San Francisco's identity as the Gateway to the Pacific using it to reimagine and rebuild the city. The city became a cosmopolitan center on account of its newfound celebration of its Japanese and other Asian American residents, its economy linked with Asia, and its favorable location for transpacific partnerships. The most conspicuous testament to San Francisco's postwar transpacific connections is the Japanese Cultural and Trade Center in the city's redeveloped Japanese American enclave. Focusing on the development of the Center, Meredith Oda shows how this multilayered story was embedded within a larger story of the changing institutions and ideas that were shaping the city. During these formative decades, Oda argues, San Francisco's relations with and ideas about Japan were being forged within the intimate local sites of civic and community life. This shift took many forms, including changes in city leadership, new municipal institutions, and especially transformations in the built environment. Newly friendly relations between Japan and the United States also meant that Japanese Americans found fresh, if highly constrained, job and community prospects, just as the city's African Americans struggled against rising barriers. San Francisco's story is an inherently local one, but it also a broader story of a city collectively, if not cooperatively, reimagining its place in a global economy.
